INFORMATION

At all times relevant to this Information:

General Allegations

1. Kyle SVARA (“SVARA”) resided in or around the Northern District of Illinois. SVARA attended high school in Plainfield, Illinois and later graduated from the University of Illinois at Urbana-Champaign with a degree in computer engineering.

2. Steve WAITHE (“WAITHE”) resided in or around the District of Massachusetts and the Northern District of Illinois. From on or about October 11, 2018, until in or about February

2019, WAITHE was employed as a coach of the men's and women's track and field team at Northeastern University ("Northeastern"). In November 2023, WAITHE was convicted of 12 counts of wire fraud; one count of cyberstalking; one count of conspiracy to commit computer fraud; and one count of computer fraud, aiding and abetting. *See* 21-CR-10342-PBS.

3. Snapchat is a social media application and service offered by Snap Inc., which has its headquarters in Santa Monica, California, that allows users to share photos, videos, and messages – commonly called “snaps” – with other users. Snaps can be directed privately to selected contacts or to a more public “story.” Unless the sender or recipient chooses to save a snap, the snap is automatically deleted, either after the content is sent or after it is opened. Snapchat also offers users the ability to save photos and videos in a private, passcode-protected portion of the application called “My Eyes Only.” Snapchat servers are used in and affecting interstate and foreign commerce.

4. TextNow is a free, Voice Over Internet Protocol (“VOIP”) application and service that allows users to text, call, or video call any number in the United States and Canada. TextNow, which has headquarters in Ontario, Canada and an office in San Francisco, California, provides users with a phone number that can be used on any smartphone, tablet, or desktop computer with an internet connection. When a user registers for TextNow, they are assigned a 10-digit phone number, and the user can request a number with their desired area code. TextNow will only assign one phone number to a TextNow account at a time. TextNow servers are used in and affecting interstate and foreign commerce.

5. Victims 4, 9, 14, 16, 23-25, 37, 39, 43, 46, 49, 58, 69, 75, 78, 83, 87, 94-96, and 546-571 were women who were known to WAITHE, because they were or had been students at Northeastern University and members of Northeastern's Women's Track and Field or Soccer

teams; had attended college or high school with WAITHE; or had other personal relationships with WAITHE. In 2020, Victim 14 resided in the District of Maryland, Victim 16 resided in the District of Colorado, Victim 39 resided in the District of Massachusetts, Victim 46 resided in the Western District of North Carolina, Victim 75 resided in the District of Arizona, Victim 87 resided in the District of Massachusetts, and Victim 94 resided in the Western District of Pennsylvania.

6. Victims 1, 3, 5-6, 10, 12, 15, 19-20, 26, 28-30, 35, 38, 41, 44, 47-48, 52, 54, 60, 63-64, 68, 70-71, 73, 86, 88, 92, and 101-102 resided in or around Plainfield, Illinois, in the Northern District of Illinois in 2020 and 2021.

7. Victims 8, 22, 31, 33, 45, 51, 67, 72, 80, and 93 were students at Colby College in Waterville, Maine, and lived in or around the District of Maine in 2020 and 2021.

Scheme to Defraud

8. From at least May 2020 to February 2021, SVARA used social engineering and other resources to obtain victim emails, phone numbers and/or Snapchat usernames; used those means of identification to access victim Snapchat accounts, prompting Snap Inc. to send account security codes to victims; opened accounts with VOIP services like TextNow; posed as a representative of Snap Inc. and texted victims requesting their Snapchat access codes using anonymized VOIP phone numbers; accessed victims' Snapchat accounts without authorization and downloaded victims' compromising nude and semi-nude images; and sold or traded stolen images on internet forums or in transactions with individuals who had requested the account compromises. Through this scheme, SVARA successfully obtained Snapchat access codes from Victims 1-571 and compromised the Snapchat accounts of Victims 1-9, 12-14, 16-21, 27-30, 32-33, 39, 42, 44-47, 49, 52-57, 63, 65, 67, 69, 71, 75-76, 79, 80-82, 84, 86-89, 94-97, 99, and 523, among others known and unknown to the United States Attorney.

9. Specifically, SVARA opened a TextNow account in his own name but with an anonymized email address on June 10, 2020, which over time was associated with at least five different telephone numbers. All five phone numbers had the area code “213,” which is associated with Los Angeles, California. SVARA registered this account using an IP address ending in -186 (the 186 IP address), which geolocated to the Plainfield, Illinois area where SVARA lived.

10. Posing as the “Snapchat Support Team,” SVARA used his TextNow account to send more than 4,500 outgoing messages to would-be victims. In response, SVARA received more than 700 incoming messages containing five- or six-digit security codes from Victims 1-571, which he used to access his victims’ Snapchat accounts without authorization. Once SVARA had accessed a victim’s account, SVARA would change the password and enable two-factor authentication security measures, which prevented the true account holder from regaining control of her account. SVARA then downloaded images stored within the victim’s account, primarily nude or semi-nude images.

11. SVARA further solicited four-digit “My Eyes Only” passcodes, which allowed him to access a section of the victim’s Snapchat account that had additional security and required a second passcode. SVARA also collected personal information that could allow him to guess or reverse engineer a victim’s “My Eyes Only” code, such as the victim’s date of birth, pet’s name, or favorite color.

12. SVARA kept stolen victim content for himself and sold or traded it with others on the internet. SVARA advertised on internet forums like Reddit that he could “get into girls snap accounts” for others and provide content “for you or trade.” He directed potential co-conspirators to reach out to him on other, more secure channels like the encrypted messaging application Kik.

13. In one example of this scheme, on June 17, 2020, SVARA used his TextNow

account to message Victim 33 while she was in the District of Massachusetts. SVARA posed as the “Snapchat Support Team” and requested that Victim 33 provide a six-digit security code to secure her account. Victim 33 responded with the requested six-digit code. Victim 33 then separately received emails from Snapchat notifying her of a new login to her Snapchat account from an iPad near Plainfield, Illinois, using the 186 IP address, and notifying her that her password had been changed.

14. In a second example, on October 30, 2020, SVARA used his TextNow account to message Victim 67 while she was in the District of Massachusetts. SVARA posed as the “Snapchat Support Team” and requested that Victim 67 provide a six-digit security code to secure her account. Victim 67 responded with the requested six-digit code. SVARA then solicited an additional four-digit passcode, and Victim 67 responded with her four-digit My Eyes Only passcode. Her account was then accessed with an iPad, its password was changed twice, and a two-factor authentication application was enabled and disabled.

Overview of the Conspiracy to Commit Computer Fraud

15. From on or about October 5, 2020, through on or about October 24, 2020, SVARA compromised the Snapchat accounts of Victims 4, 9, 14, 16, 39, 46, 49, 69, 75, 87, and 94-96, who were connected to WAITHE either through their common participation in Northeastern athletics or other personal relationships with WAITHE.

16. SVARA obtained access to the Snapchat accounts of one or more victims and downloaded or otherwise copied certain contents of the accounts, including nude and/or semi-nude photos or videos stored in the accounts.

17. SVARA provided these stolen contents to WAITHE. In exchange, WAITHE paid SVARA three times, for a total of \$50.

Object and Purpose of the Conspiracy

18. The object of the conspiracy was to commit computer fraud, in violation of Title 18, United States Code, Section 1030(a)(4), by accessing a protected computer, to wit, the servers of Snap Inc., without authorization to obtain a thing of value. The principal purpose of the conspiracy was to obtain nude and/or semi-nude photos of victims that WAITHE and SVARA could keep for themselves and sell or trade to others.

Manner and Means of the Conspiracy

19. Among the manner and means by which SVARA, together with others known and unknown to the United States Attorney, carried out the conspiracy to commit computer fraud were the following:

- a. Advertising SVARA's ability to compromise victim Snapchat accounts on online forums including Reddit;
- b. Utilizing anonymizing phone services, including TextNow, to contact victims in the guise of representing Snap Inc. and providing technical support;
- c. Compromising the Snapchat accounts of victims who had relationships with WAITHE;
- d. Downloading contents of victim accounts, including nude and/or semi-nude photos stored in the accounts;
- e. Transmitting stolen victim contents to WAITHE; and
- f. Receiving one or more payments from WAITHE for SVARA's assistance in obtaining unauthorized access to, as well as the contents of, victims' Snapchat accounts.

- f. On October 7, 2020, WAITHE sent SVARA a CashApp payment of \$20.
- g. On October 14, 2020, SVARA posed as a representative of Snap Inc. and sent text messages to Victim 94 requesting her pin. Upon receipt of the pin, SVARA accessed Victim 94's Snapchat account without authorization.
- h. On October 16, 2020, SVARA posed as a representative of Snap Inc. and

sent text messages to Victim 87 requesting her pin. Upon receipt of the pin, SVARA accessed Victim 87's Snapchat account without authorization.
