**EXHIBIT A - Claim Chart**
**U.S. Patent No. 7,752,060 To MDx's Current Website**

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| 1. A computer-implemented method of providing healthcare provider information to potential patients, said method comprising: | | MDx Medical, Inc. ("MDx") directly infringes this claim by practicing a computer-implemented method of providing healthcare provider information to potential patients via its on-line information system, which includes its website (www.vitals.com), its healthcare provider database, and the software and hardware, that are associated therewith.<br><br>MDx provides potential patients with access to MDx's database of information relating to healthcare providers, such as doctors, through its www.vitals.com website.<br><br>Various screenshots taken from http://www.vitals.com/[1] are provided in this claim chart to illustrate the various features of the vitals.com website and how these features correspond to the features of claims 1, 4-9, 11, 14-16. For instance, Screenshot No. 1 (reproduced below and, in larger form, in Exhibit C) illustrates the homepage of the MDx website where a potential patient begins accessing MDx's information related to specific doctors.<br><br>Screenshot No. 1 |

[1] Screenshots taken between 6/1/11 and 2/24/2012.

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 1 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>For example, MDx provides a potential patients with information about a healthcare provider in response to the potential patient clicking on the "find the doctor you need" link or in response to the potential patient clicking on the "find a doctor now" link, both of which are circled in red on Screenshot No. 1 above. |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 2 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| receiving, by a Web server computer of a company providing a service for connecting healthcare providers with the potential patients, a request for information regarding a first healthcare provider, wherein the Web server computer comprises at least one computer processor and memory; | "First Healthcare Provider: a particular healthcare provider about whom information is requested and a report is produced." (Markman Order at 23.) | When the potential patient initiates a search for a healthcare provider on the MDx's website, MDx's web server receives a request for information regarding a healthcare provider via the internet. MDx's web server, as with any server, comprises at least one computer processor and memory.<br>Screenshot No. 2<br><br>Screenshot No. 2 shows an example of where a potential patient may initiate a search for a |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 3 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | healthcare provider on MDx's website, i.e., request information about one or more healthcare providers. When the user clicks "find a doctor now," this prompts the patient's web browser to send a request for information about a doctor to the MDx's web server, which receives the request for information and then accesses MDx's database to find data that responds to the user's search query.<br><br>Screenshot No. 3 illustrates yet another portion of MDx's website that provides for MDx's web server to receive a request for information about various doctors based on specialty or location. *See* Screenshot No. 3 (circled in red are ways to search for a doctor).<br><br>Screenshot No. 3 |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 4 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>The Court's Markman Order defines the first healthcare provider as "a particular healthcare provider about whom information is requested and a report is produced." (Markman Order at 23.)<br><br>MDx literally infringes this element as construed by the Court in its Markman Order. For example, on the www.vitals.com website, information can be requested about a particular |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 5 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | healthcare provider by performing various searches, which are initiated at the www.vitals.com homepage. Specifically, a potential patient may initiate a search for a particular healthcare provider on MDx's website, which prompts the patient's web browser to send a request for information about the particular doctor the patient is looking for to the MDx's web server, which receives the request for information and then accesses MDx's database to find data that responds to the user's search query. The various kinds of searches offered on www.vitals.com are shown below:<br><br>First, MDx's website provides for MDx's web server to receive a request for information about a particular healthcare provider when a potential patient clicks the "search by name" link shown below: |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 6 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>For example, a patient can request information about Dr. Smith in New York, NY: |

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 7 of 62

EXHIBIT 2

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|

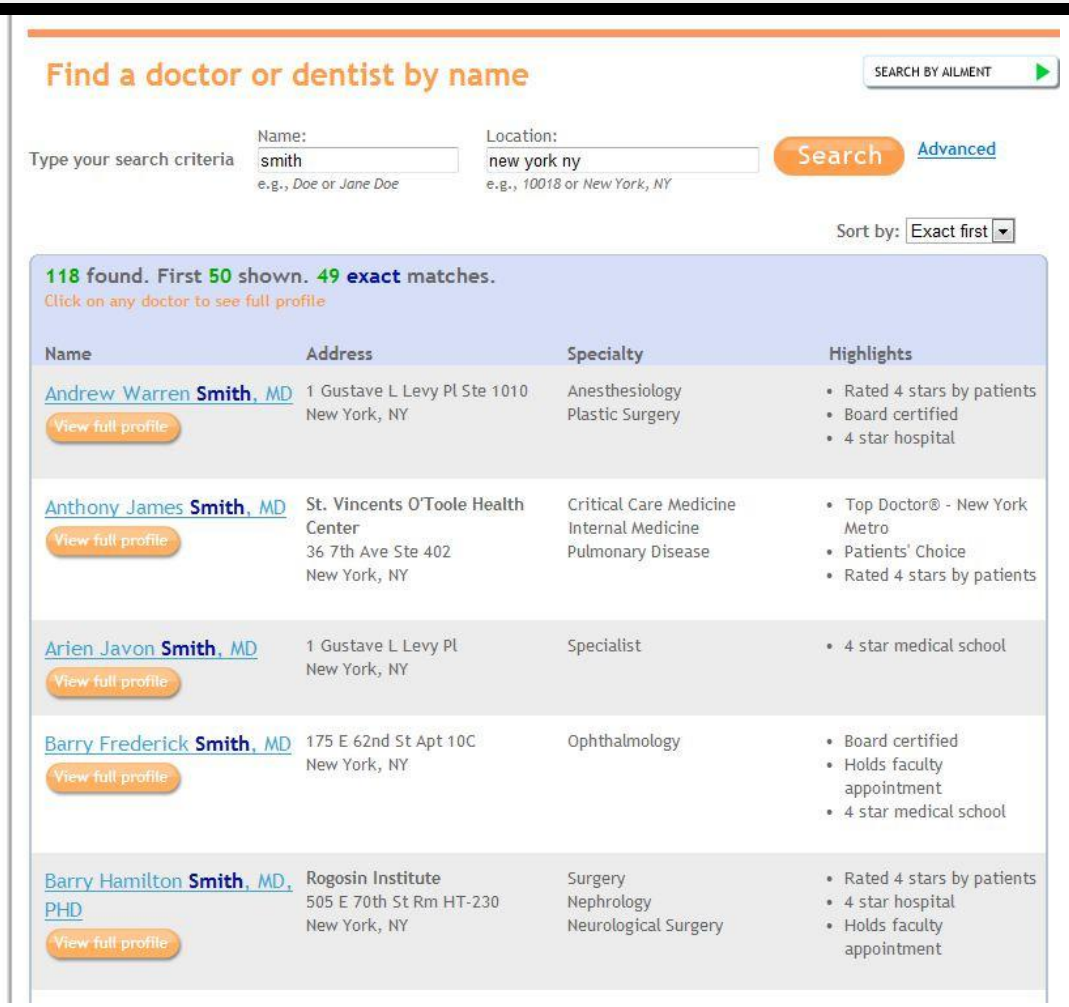

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 8 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | As another example, by clicking on the "advanced tab," a potential patient can request information about Dr. Smith, who is a male plastic surgeon in New York, NY: |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 9 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | |  |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 10 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | As another example, a patient can request information about Dr. James Smith in New York, NY:<br><br><br>Second, MDx's website also provides for MDx's web server to receive a request for information about a particular healthcare provider when a potential patient clicks the "search by specialty" link shown below: |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 11 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>For example, a potential patient can request information about a plastic surgeon in New York, NY: |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 12 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>As another example, by clicking the "Narrow by" button above and selecting additional search criteria, a potential patient can request information about a female plastic surgeon in New York, NY, who speaks Spanish, is board certified, educated in the U.S., and rated 3 stars or higher: |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 13 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | |  |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 14 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | As another example, a potential patient can request additional information regarding a particular doctor by clicking on any of the hyperlinks shown in the screenshot above. If you click on "Sujana S. Chandrasekar, MD", for example, you get additional information about her (partial view shown):<br><br><br>To the extent that the Court's construction of first healthcare provider requires that the request for information be directed to *only* one particular healthcare provider, a position with which |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 15 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | Health Grades disagrees, MDx both literally infringes this element and infringes under the doctrine of equivalents. MDx literally infringes this element because the www.vitals.com website is capable of receiving requests for information about only one particular physician. MDx infringes under the doctrine of equivalents because a request for information about multiple particular physicians performs substantially the same function, in substantially the same way, to achieve substantially the same result as a request for one particular physician as shown above.<br><br>To the extent that the Court's construction of first healthcare provider requires that the potential patient know the identity of the particular physician for whom he or she is requesting information before they request the information, a position with which Health Grades disagrees, MDx both literally infringes this element and infringes under the doctrine of equivalents. MDx literally infringes this element because the www.vitals.com website is capable of receiving requests for information about a particular physician whose identity is known to the requestor before the information is requested. MDx infringes under the doctrine of equivalents because a request for information about a particular physician that has characteristics that meet search criteria (e.g. female, plastic surgeon, in New York, NY) performs substantially the same function, in substantially the same way, to achieve substantially the same result as a request for a particular physician whose identity is known before the search is run. |
| accessing healthcare provider-verified information about the first healthcare | "First Healthcare Provider: a particular healthcare provider about whom | The Court's Markman Order defines the first healthcare provider as "a particular healthcare provider about whom information is requested and a report is produced." (Markman Order at 23.)<br><br>At the initiation of the potential patient/user using MDx's website, MDx's web server accesses healthcare-provider-verified information about a particular healthcare provider. *See* Screenshot |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 16 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| provider, wherein the healthcare provider-verified information is received from the first healthcare provider and comprises three or more from the group consisting of: specialty information, medical philosophy, gender, age, years in profession, years in practice, awards, honors, professional appointments, professional memberships, publications, languages, and hobbies; | information is requested and a report is produced." (Markman Order at 23.)<br><br>"Received from the First Healthcare Provider: receipt of information from the first healthcare provider or one of his or her agents, such as an employee, as distinguished from information received from patients or public sources." (Markman Order at 24.)<br>"Although defendant is | No. 4 (illustrating the result of accessing and displaying doctor supplied information). Highlighted in Screenshot No. 4, among other things, are the following pieces of healthcare provider-verified information: doctor's age, gender, specialty information and years in practice.<br><br>Screenshot No. 4<br><br><br><br>The Court's Markman Order defines "received from the First Healthcare Provider" to mean: "receipt of information from the first healthcare provider or one of his or her agents, such as an |

EXHIBIT 2

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 39 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | With regard to the example shown above with respect to the request for information regarding the first healthcare provider as construed by the Court, the following screenshot shows a portion (e.g. a first page) of a healthcare provider report for the first healthcare provider discussed above, Dr. James Smith, in New York, NY. This report uses at least the following information: (1) healthcare provider-verified information, circled in red; (2) patient-provided information, circled in green; and (3) information verified by an independent third party circled in purple. The report also includes comparison ratings, circled in orange, about Dr. James Smith, and other healthcare providers as required by the Court's Markman Order, circled in blue . |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 40 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>Additional portions (e.g. pages) of Dr. Smith's report include additional (1) healthcare provider-verified information, circled in red; (2) patient-provided information, circled in green; and (3) information verified by an independent third party circled in purple: |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 41 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | |  |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 42 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | |  |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 43 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | |  |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 44 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | As another example, the following screenshot shows a portion (e.g. a first page) of a healthcare provider report for the first healthcare provider discussed above, Dr. Sujana Chandrasekhar. This report uses at least the following information: (1) healthcare provider-verified information, circled in red; (2) patient-provided information, circled in green; and (3) information verified by an independent third party circled in purple. The report also includes comparison ratings, circled in orange, about Dr. Chandrasekhar, and other healthcare providers as required by the Court's Markman Order (circled in blue). Additional pages of this report on Dr. Chandrasekhar contain additional healthcare provider verified, patient provided information, third party verified information as required by the claims. |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 45 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>To the extent that the Court's construction of first healthcare provider requires that the healthcare provider report on the first healthcare provider include *only* one particular healthcare |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 46 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | provider, a position with which Health Grades disagrees, MDx both literally infringes this element and infringes under the doctrine of equivalents. MDx literally infringes this element because the www.vitals.com website is capable of creating a healthcare provider report about *only* one particular physician. A portion of a healthcare provider report about Dr. James Smith (e.g. the first page of the healthcare provider report on the first healthcare provider), and only Dr. James Smith, is shown in the green square below: |

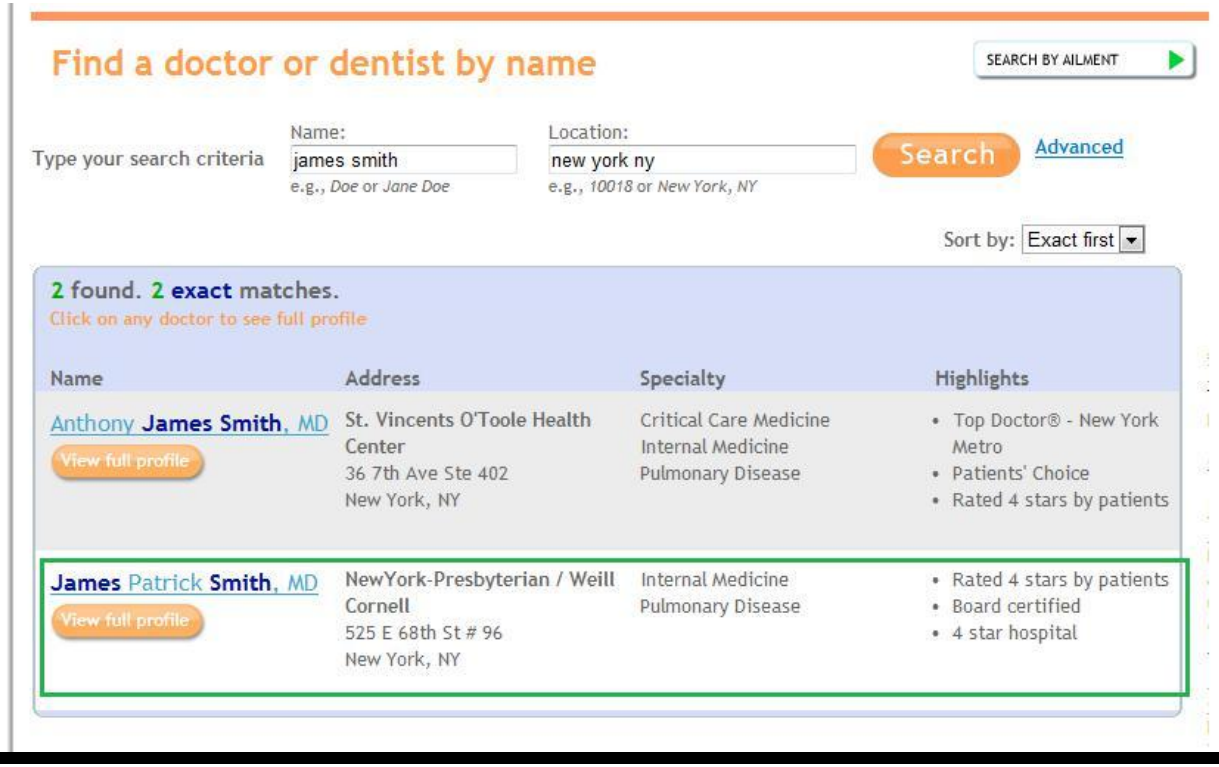

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 47 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | As another example, a portion of a healthcare provider report about Dr. Sujana Chandrasekhar (e.g. the first page of the healthcare provider report on the first healthcare provider), and only Dr. Chandrasekhar, is shown in the red square below: |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 48 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>MDx infringes under the doctrine of equivalents because creating a report that includes multiple particular physicians performs substantially the same function, in substantially the same way, to achieve substantially the same result as creating a healthcare provider report about |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 49 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | one particular physician.<br><br>To the extent that the Court's Markman Order additionally requires that the comparison ratings of the first healthcare provider be within the same report as the comparison ratings of the other healthcare providers, MDx infringes under the doctrine of equivalents because it displays at least the first page of multiple healthcare provider reports, each about a single particular healthcare provider (reports are shown by green boxes), and each including comparison ratings of that particular healthcare provider (comparison ratings shown by orange boxes), on the same viewable page, side-by-side, as shown below: |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 50 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>And as another example (reports are shown in red squares, comparison ratings of the first healthcare provider are shown in the orange square): |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 51 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | <br>Displaying multiple healthcare provider reports, each about a single healthcare provider and each including comparison ratings of that particular healthcare provider, performs substantially the same function, in substantially the same way, to achieve substantially the same result as creating a report about a first healthcare provider that includes comparison ratings of multiple healthcare providers. |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 52 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | To the extent that the Court's construction of comparison ratings of healthcare providers requires that the comparison ratings of the first healthcare provider be shown on the same page (e.g. side by side) as the comparison ratings of other healthcare providers, MDx both literally infringes this element and infringes under the doctrine of equivalents. MDx literally infringes this element because the www.vitals.com website is capable of providing a healthcare provider reports on a particular healthcare provider that include comparison ratings of that particular healthcare provider as well as other healthcare providers, which are displayed on the same page, side-by-side. MDx infringes under the doctrine of equivalents because a healthcare provider report that displays comparison ratings of the first healthcare provider on a different page than comparison ratings of other healthcare providers performs substantially the same function, in substantially the same way, to achieve substantially the same result as displaying this information side-by-side.<br><br>To the extent that the Court's construction of first healthcare provider requires that the healthcare provider report on the first healthcare provider be limited to a single viewable page, a position with which Health Grades disagrees, MDx both literally infringes this element and infringes under the doctrine of equivalents. MDx literally infringes this element because the www.vitals.com website is capable of healthcare provider report on the first healthcare provider be limited to a single viewable page as shown above. MDx infringes under the doctrine of equivalents because creating a healthcare provider report on the first healthcare provider that is displayed on multiple viewable pages, linked together, performs substantially the same function, in substantially the same way, to achieve substantially the same result as creating a healthcare provider report on the first healthcare provider be limited to a single viewable page.<br><br>The purpose of this element is to provide a patient with a report containing information about a particular healthcare provider, e.g., a first healthcare provider, who matches a patient's search criteria. Additionally, it facilitates comparisons among the matching healthcare providers. MDx's website is capable of doing this. In fact, it is capable of providing the claimed |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 53 of 62

| U.S. Patent No. 7,752,060 | Markman Order | MDx's Current On-line Information System |
|---|---|---|
| | | information about multiple healthcare providers and has multiple ratings systems that facilitate comparisons among the healthcare providers that match the search query as described above.<br><br>To the extent that MDx does not include comparison ratings in its report, MDx infringes under the doctrine of equivalents at least because it includes ratings that function to allow customers to compare physicians against other physicians. The way in which these ratings are included is substantially the same, i.e., through the above mentioned computer method. The result is substantially similar, i.e., a website that allows a customer to compare physicians using ratings. |
| providing access to the healthcare provider report on the first healthcare provider over a computer network. | | MDx provides access to the doctors' healthcare provider reports over a computer network. *See* Screenshot No. 23 (highlighting that this information was accessed over a computer network, e.g., the Internet, and that the profile can be sent by email or printed).<br><br>Screenshot No. 23 |

EXHIBIT 2

Case No. 1:11-cv-00520-RM-NYW Document 148-2 filed 03/02/12 USDC Colorado pg 54 of 62
