Ghost Gunner 2

\$2,000.00

(https://ghostgunner.net/wp-content/uploads/2017/11/defdist_1_1024x1024_c3b77ee8-13c8-4415-b8e1-9dee0ac19ff5_1024x1024.jpg)

Sold with the cut codes to complete selected 80% lowers and frames such as the AR-15, AR-308, and the M1911, the Ghost Gunner 2 takes its name from its second-generation, custom motion-control board, which allows it to operate as a standard CNC machine. GG2 accepts g-code from most CAM post-processors. To use the GG2, you only need to provide the desired frame/lower and corresponding jig set (sold separately) and any computer or laptop with a windows or mac OS.

For more information, check out the product details and lower guide below.

Order one of our Starter Kits (/featured-products/#starter-kits) including everything you need to get milling. For best results, use 80% lowers/frames, fixtures, and tooling (/featured-products/) designed to work harmoniously with

the Ghost Gunner.

Product Details >

Product Details

Lower Guide

Ghost Gunner is a general purpose CNC mill built upon the Arduinio micro-controller.

Tech Specs

 GG2 takes it name from its second-generation, custom motion-control board, which allows it to operate as a standard CNC machine. GG2 accepts g-code from most CAM post-processors.

Additional information

 GG2 unibody spindles are of stainless steel construction with the ER-11 collet system integrated in the shaft. They have increased radial rigidity, precision bearing diameters

and a 10x reduced initial runout specification.

Included with the GG2: A DD USB with all our latest software, ER-11 collet nut, 5/16" allen wrench, 3mm ball-end allen wrench, 12mm wrench, 17mm wrench, 6' USB A-B cable, 6' three-prong power cable. Laptop not included.

Shipping for the GG2 will be \$100 flat rate for anywhere in the United States.

A tool for the Second Amendment guys!

I have retired THREE jig sets that I bought over the past several years! Ghost Gunner 2 gives excellent milling results and most important - repeatability that eliminates the human variability. No more flying metal splinters or the tedious jig process of adjusting router depth/milling/stopping/cleaning/rinse-and-repeat. Ghost Gunner 2 provides a l...[Read More](#)

You might be retarded. Luckily the GG2 is not

I have the mechanical ability of a goldfish. I could do an illegal u-turn with a train on railroad tracks. This machine tells you step by step what to do, and in the end you are looking at a perfect product like it came out of FN (notice I didn't say Colt?). The only thing this machine doesn't tell you to do is scratch your sack, put a dip in, wh...[Read More](#)

Simple to use, great outcome

If you can install software on your computer, use a wrench, and follow simple pictorial directions, you can achieve a great outcome with the GGII. I am beginning to learn how to use the great open code feature to complete other jobs!

Great product

Received my ghost gunner, had a small issue with the thumb drive, they sent a new one right away, customer service was great

Customer provided note:
 Hello, I work in the oil fields outside Odessa and don't want this to sit outside my house all day after it is delivered. It would be stolen before I got home after 8pm. Any problems if I send it to my cousins house and then I can get it when I visit for Christmas. Thanks

Subject: how to become dealer and order request.
From: alex n <alexna11ion@gmail.com> (Add as Preferred Sender)
Date: Tue, Nov 27, 2018 4:02 pm
To: info@longfiri.com

I would like to order 25 of your Longfiri Tactical Ballistic helmets color black and size L. I would also like to order 25 of your Longfiri Tactical Ballistic helmets color black and size XL. This would make the order 50 pieces and after I receive them and we can talk about other items I would like to order. Please forward price and payment instructions. Thanks, Alex Quiroz
