OBJECTION TO CLASS ACTION SETTLEMENT

Rasmussen et al. v. Tesla, Inc., No. 5:19-cv-04596-BLF

I strongly object to this class action settlement because my Tesla Model S purchase cost approximately \$10,000.00 additionally for the larger battery which extended its range. A \$625.00 settlement is not acceptable. I want either my \$10,000.00 refunded or my full 300 mile range restored. Tesla released subsequent software updates in July 2019 and March 2020 to fully restore maximum voltage and range over time as the vehicle is driven. **HOWEVER**, my vehicle range **HAS NOT** been restored as of today's date and the car has been driven approximately 52,700 miles.

Tesla should be responsible to service out of warranty vehicles until full/maximum mileage is restored!
