Hey Kyle,

- Regarding the UBO & Directors - we're looking for the ultimate beneficial owner behind these entities.

Please find the company registry disclosure of BiT Global Trust for your reference. We are bound by confidentiality to make any further information. In the context of Justin Sun, we can confirm that he is not involved in the shareholding structure directly or indirectly.

- For your second question

WBTC was launched on the TRON network at the end of 2020, deployed by the BitGo/WBTC team. However, the mint and burn operations have not been very active over the past four years. You can refer to the records through the following links:

Contract address: <https://tronscan.org/#/token20/TXpw8XeWYeTUd4quDskoUqeQPowRh4jY65>

Collateral records: <https://wbtc.network/dashboard/audit/wbtc-tron>

It shows that 99.89000964 WBTC have been issued on the TRON network, with 99.8908 BTC as collateral.

Regarding the Poloniex announcement and related matters with the TRON team, we do not have much information. The best approach might be to inquire directly with the relevant parties at Poloniex and TRON.

Thanks,  
Maxwell

Hi Maxwell,

Referring back to our original questions, we have some additional clarifying questions:

- Regarding the UBO & Directors - we're looking for the ultimate beneficial owner behind these entities.
- Regarding the last question about WBTC on TRON: Justin Sun previously created a version of wrapped bitcoin for TRON issued through [Poloniex](#). Can Sun provide the addresses for this version of wrapped bitcoin's BTC reserves?

Thanks and let me know if you have any questions,

Kyle Cotsones
