Q. Did you locate any notes --
A. No. That's got to be from September, because it's got, "Motion re: Jim's statement - check notes."
Q. Let me go back to my original question. Did you locate any notes which you took at the August 1, 2002, meeting?
A. No.
Q. What happened to those?
A. I brought them to the September meeting with me as a response -- I pulled them from the file and took them with me to the September meeting, as we were asked to do, and I don't know what happened to them after that. No one asked for them.
Q. How many pages of notes did you have from the August 1, 2002, meeting?
A. Probably no more than one.
Q. Do you recall any of the specific entries which were on those notes?
A. I wrote down that Jim Fulks made the statement that he had been -- that Microfibres had been heat transfer printing on greige goods with dark printed pigmented adhesive since 1984.
Q. Do you recall any other specific reference that was included on the notes which you took of the August 1,
