APPLICANT'S RESUME

Resume : Resume	Uploaded Document	View

KSAs / COMPETENCIES

For each statement, indicate which description best reflects your **highest** level of experience. Do not select an answer unless you **fully meet** all criteria described for that response. You must include a short narrative response to support your choice unless your answer is 'None of the above.'

Ability to convey analysis and information orally through briefings, consultations and other presentations.

Conveyed analysis and information orally through briefings, consultations, and other presentations, in both planned and extemporaneous situations, in order to discuss or explain public policy issues related to terrorism and international crime. This included targeting the amount, form, depth and level of detail, and content of information to the needs of the receiver/audience.

(●) Routinely consulted with, advised, and briefed audiences at the highest level on complex and controversial public policy issues of national and/or international significance. Contacts were often initiated by decision-makers. Settings were often unstructured and included those where audience knowledge of the issue ranged from expert to layman and the presenter had to respond to questions without benefit of obtaining additional information or support. Examples include testifying before a committee of the U.S. Congress; providing oral policy briefings or formal presentations to senior officials in the private or public sector (e.g., CEOs, agency heads, executive committees, state legislators); or equivalent experience.

Routinely briefed and presented analysis of complex and controversial public policy issues of national and/or international significance

- to audiences with varying levels of expertise. Contacts were sometimes initiated by decision-makers. Settings were sometimes unstructured and included those where audience knowledge of the issue ranged from expert to layman and the presenter had to respond to questions without benefit of obtaining additional information or support. Examples include providing oral policy briefings or formal presentations to mid-level officials in the private or public sector (e.g., Chief of Staff, Legislative Director), acting as a spokesperson for an agency or a public affairs representative for a national corporation defending a program or policy decision or action, conducting policy briefings for the press; or equivalent experience.
- Frequently presented analysis of complex and controversial public policy issues of national and/or international significance to audiences with varying levels of expertise. Settings included those that were unstructured. Examples include explaining agency or corporate programs to audiences with various levels of knowledge of the issue; briefing and responding to questions from policy-makers; teaching a public policy course; or equivalent experience.
- None of the above.

SUPPORTING INFORMATION: In the capacity of Director, Campaign Support Group, briefed the Chairman, Joint Chiefs and Secretary of Defense 2 x monthly on plans and issues regarding the Global War on Terrorism.

Knowledge of terrorism and international crime.**

Have knowledge of the theories, concepts, processes, techniques, principles, and/or practices of international relations and national security policy. This includes knowledge of the history, trends, and current status and interrelationships of terrorism and international crime, as well as related issues of control and prevention (e.g., government organization, diplomacy, intelligence, homeland security, law enforcement, and national defense).

- Recognized as a national authority in terrorism and international crime and related complex issues and programs. For example, served on a national commission or National Academy of Sciences/National Research Council committee analyzing controversial issues related to terrorism and international crime; regularly consulted and advised decision-makers at the highest levels of the private or public sector (e.g., Members of Congress, agency heads, CEOs) on terrorism and international crime; or equivalent experience.
- Recognized as an expert in terrorism and international crime with knowledge of related complex issues and programs. For example, served as a tenured faculty member and/or managed a variety of research related to terrorism and international crime; consulted on terrorism and international crime with national decision- makers in the public or private sector; developed, implemented, and evaluated programs at the Federal level to control terrorism and international crime; invited to serve as a peer reviewer for a scholarly or professional journal or published extensively in peer-reviewed professional journals on terrorism and international crime; or equivalent experience.
- Recognized by decision-makers as a professional resource in terrorism and international crime. For example, served as an agency representative on an inter-agency task force developing policies in terrorism and international crime, published several articles in peer-reviewed professional journals on terrorism and international crime, worked as a journalist primarily in terrorism and international crime for a major newspaper or trade publication relied on by professionals in the field, or equivalent experience.
- None of the above.

SUPPORTING INFORMATION: Directed the Campaign Support Group and US Special Operations Command (USSOCOM) planning and operations for the Global War on Terrorism.

Ability to build and maintain a professional network.

Identified, built, and maintained a professional network with co-workers, congressional Members and staff, officials of government agencies, and colleagues in academia and the research and policy communities.

- Recognized and consulted by experts and policy makers as a senior leader in the regular interaction of professionals and practitioners in combating terrorism and international crime, or a related field. Examples include: being invited to serve as a peer reviewer for a professional journal or for grant assessments or evaluations; chairing, moderating, or convening a national conference; working as a public affairs specialist or key lobbyist for a national organization or as the principal congressional liaison for a federal agency; or equivalent experience.
- Closely worked with professionals and practitioners in regular interaction on matters of common interest to combating terrorism and international crime, or a related field. Examples include: an active role in convening or managing a professional conference; service on a continuing committee or task force of experts; experience as a lobbyist or congressional liaison; covering a beat or policy area for a publication; or equivalent experience.
- Active as a regular participant in and contributor to professional exchanges of information and perspectives, allowing ready access to a breadth of respected opinion in a field. Examples include participation on a panel as an expert or an author at a conference, hearing or collaborative publication; service on a committee or task force of experts; or equivalent experience.
- None of the above.

SUPPORTING INFORMATION: Regularly asked to provide background and insight into special operations and combatting terrorism based on 26 years of military experience in special operations, CT operations and strategic planning.

Ability to write in a public policy context.**

Wrote a variety of clear, cogent, accurate, and well organized products on public policy issues related to terrorism and international crime in order to convey the results of research and analysis representing varying points of view. Examples include: decision memos, research analyses, briefing papers, analyses of options, evaluation of legislative proposals, and articles covering a complex public policy issue published in a major national or trade publication.

- (●) As a principal job responsibility, wrote a variety of authoritative analytical products assessing complex and controversial public policy issues of national and/or international significance to advise senior decision-makers in the public or private sector with varying levels of expertise. These products were related to terrorism and international crime, and included the full range of products described above.
- ( ) Routinely wrote a variety of analytical products assessing complex and controversial public policy issues of national and/or international significance for publication or dissemination to inform decision-makers in the public or private sector with varying levels of expertise. These products were related to terrorism and international crime, and included most of the products described above.
- ( ) Frequently wrote a variety of analytical products assessing complex and controversial public policy issues related to terrorism and international crime, for publication or dissemination to a variety of audiences with varying levels of expertise. These products included at least three of the examples described above.
- ( ) None of the above.

SUPPORTING INFORMATION: Directed and authored the classified, comprehensive strategic approach to the Global War on Terrorism, including all initiatives, diplomatic, informational, military and economic (DIME) related to the strategic context.

Ability to analyze public policy issues.**

Applied knowledge of terrorism and international crime to analysis of public policy issues. Conceptualized and defined public policy problems, analyzed and synthesized information and research, identified implications of data and drew appropriate conclusions, generated and assessed alternatives, and evaluated the consequences of choosing each alternative. This included presenting the big picture and the inter-relationships of all aspects of the public policy issue. Examples include: 1) identifying emerging issues, 2) evaluating legislative proposals, 3) evaluating budget/appropriations, 4) assessing public and private implications of government programs or regulations, 5) assessing alternative approaches to public policy issues, and 6) evaluating governmental organization and administrative procedures to accomplish program goals.

- (●) Routinely performed the full range of the above examples in conducting analysis on terrorism and international crime as complex and controversial public policy issues of national and/or international significance at the highest levels of the public or private sector. For example, served as a senior policy analyst (or equivalent) for a government agency, corporation, think tank, or congressional committee.
- ( ) Routinely performed most of the above examples in conducting analysis on terrorism and international crime as complex and controversial public policy issues of national and/or international significance at the highest levels of the public or private sector. For example, served as a senior policy analyst (or equivalent) for a government agency, corporation, think tank, or congressional committee.
- ( ) Frequently performed most of the above examples in conducting analysis on terrorism and international crime as complex and controversial public policy issues of national and/or international significance in the public or private sectors. For example, served as a mid-level policy analyst (or equivalent) for a government agency, corporation, think tank, or congressional committee.
- ( ) None of the above.

SUPPORTING INFORMATION: Served as senior analyst and Program Objective Memorandum developer for US Special operations Command for 5 +years, responsible for developing classified and unclassified programs, their overall capabilities, impact of legal issues, senior policy decisions, Presidential Findings and budget decisions on short term operations and long term programming.

Ability to work collaboratively with others.

Led collaborative research studies and major projects and worked collaboratively with others, including decision-makers and their staffs, other specialists and experts in the same and other disciplines inside or outside of the organization, and with others holding divergent and/or opposing views and goals.

- (●) Routinely led colleagues both inside and outside own organization in multiple collaborative research studies or major projects involving multiple disciplines related to the analysis of national and/or international public policy issues. This included frequently leading colleagues at various levels, some of whom held divergent points of view.
- ( ) Worked primarily with colleagues within own organization, routinely led multiple collaborative research studies or major projects involving multiple disciplines related to the analysis of national and/or international public policy issues. This included sometimes leading colleagues at various levels, some of whom held divergent points of view.
- ( ) Occasionally led collaborative research studies or major projects within own organization related to the analysis of national and/or international public policy issues. Projects involved colleagues from multiple disciplines and at various levels.
- ( ) None of the above.

SUPPORTING INFORMATION: Through the Campaign Support Group, organized a comprehensive review of strategic concerns regarding international terrorism including academic institutions, senior military HQ and staffs, and other governmental agencies. Continued those efforts as an ongoing forum

throughout my tenure.

Knowledge of Congressional decision-making.

Have knowledge of congressional decision-making processes by which legislation becomes law, the federal budget process, the appropriations process, and oversight, sufficient to provide timely and legislatively-relevant assistance to congressional committees, Members, and staff.

- Gained a comprehensive knowledge of and involvement with the congressional decision-making processes through experience equivalent to serving as a mid- or senior-level legislative staff for a Member or congressional committee, for a congressional support agency, a federal agency in the executive branch, other groups such as a private public policy organization, or equivalent experience.
- Gained a thorough knowledge of the congressional decision-making processes through such activities as developing or promoting draft legislative proposals at the staff level in a governmental agency or nonprofit organization; representing a private group, company, nonprofit organization or public interest group to Congress; reporting on congressional work for a news or public policy organization; teaching courses on Congress at a post secondary educational institution; or equivalent experience.
- Gained knowledge of the congressional decision-making processes through concentrated research or education at a post-secondary educational institution or experience such as writing a thesis or dissertation on Congress, serving as a fellow with a congressional office or committee, advising clients on legislative issues, or equivalent experience.
- None of the above.

SUPPORTING INFORMATION: Significant experience through my current position at the National Guard Bureau and education at the National War College.

Ability to design and utilize research and analytical methods and techniques.**

Designed and utilized research and analytical methodologies and techniques pertinent to terrorism and international crime. Applied these methodologies and techniques to the analysis, appraisal, and evaluation of complex public policy issues.

- Conceptualized research approaches to the analysis of highly complex public policy issues with many unknowns. Routinely developed methods and designed and implemented qualitative and/or quantitative research efforts relevant to terrorism and international crime. This required expert knowledge of variables and their interrelationships; of the identification, selection, and evaluation of data; and of analytical options. The research involved innovative applications of cutting-edge, multidisciplinary techniques and methods. Interpreted results of research for use by senior-level audiences ranging from expert to layman.
- Routinely designed and implemented qualitative and/or quantitative research efforts related to terrorism and international crime within the context of complex public policy issues. This required extensive knowledge of variables and their interrelationships; of the identification, selection, and evaluation of data; and of analytic options. This research involved the innovative application of a wide range of established, multidisciplinary analytic techniques and methods. Interpreted results of research for use by senior level audiences ranging from expert to layman.
- Frequently participated in the design and implemented qualitative and/or quantitative research efforts related to terrorism and international crime within the context of complex public policy issues. This required expert knowledge of the data and their history, strengths, weaknesses, etc. The research involved the advanced application of a wide range of established analytic techniques and methods. Interpreted results of research for use by audiences ranging from expert to layman.
- None of the above.

SUPPORTING INFORMATION: Developed a comprehensive approach to strategic constructs for use in the Global War on Terrorism using DIME as the basis and including country planning, detailed cost projections, economic modeling, and integration & synchronization of current and projected operational alternatives against national strategic priorities. Also developed an accelerated Combatant Command planning system now in use throughout the Dept of Defense.

ELIGIBILITY TO APPLY
