1 TUCKER CARLSON: Well, last night, in a segment
2 about voter fraud and investigations into it, we told you
3 about Sidney Powell, the former federal prosecutor, and
4 her claim that roughly 7 million votes were secretly
5 changed on election night by vote -- rigged vote counting
6 software.

7 Well, in the last 24 hours since we did that,
8 we've heard from a lot of people about that segment,
9 including people in the Whitehouse and people close to the
10 president. Like us, they have concluded this election was
11 not fair. Like us, they are willing to believe any
12 explanation for what happened.

13 Like us, they have not seen a single piece of
14 evidence showing that software changed votes.

15 It doesn't mean it didn't happen. It might have
16 happened. It means they haven't seen any evidence that it
17 happened. And by "they," we are including other members
18 of Donald Trump's own legal team. They have not seen
19 Powell's evidence either. No testimony from employees
20 inside the software companies, no damning internal
21 documents, no copies of the software itself.

22 So that's where we are.

23 Sidney Powell came on Fox this morning and
24 suggested we may not have to wait much longer.

25 I fully expect, she says, that we will be able to

1 prove all of it in a court within the next two weeks.

2 Well, as far as we're concerned, that is great
3 news. If Sidney Powell can prove the technology companies
4 switched millions of votes and stole a presidential
5 election, she will have almost single-handedly uncovered
6 the greatest crime in the history of this country, and
7 no one will be more grateful for that than us.
