File:

Global Prayer for U.S. Election Integrity

1 SPEAKER: At -- this time we are so honored
2 to have with us at -- at a very critical juncture
3 Sidney Powell; just a renowned a -- attorney. She
4 represented Michael Flynn, who was with us a
5 couple weeks back, and she's representing a lot of
6 cases on this election integrity, exposing the
7 election fraud, so that we can re-establish
8 President Trump as the legitimate winner of the
9 elections, and our next President for four years.

10 Sidney, thank you so much for joining us.
11 Are you able to speak from where you're at?

12 SIDNEY POWELL: Thank you for having me on.
13 Thank you for your prayers and support. We've --
14 our team -- whole team feels it. We have had
15 information come at us from multiple different
16 directions. I -- I can see God's hand in sending
17 us things we need when we need it. And it's been
18 a -- a huge honor to work on this project.

19 We must get to the truth of this election,
20 the American people are entitled to and are
21 starved for the truth.

22 The bottom line question I always ask is:
23 Why is it so hard to look into the machines?
24 There shouldn't even be an issue about that.
25 Federal law requires people to keep all election

1 information for 22 months, under penalty of -- of
2 criminal prosecution with up to a year in prison
3 and a fine.

4 Well, that's because our elections are
5 supposed to be transparent. This is one country
6 in the world where we're supposed to be able to
7 count on one person, one vote. And what we've
8 gotten this year, we've finally seen it in
9 real-time, is an algorithm being run to shave a
10 substantial portion of the votes so that Mr. Biden
11 got 1.26 in many places, and a Trump vote was
12 weighed at .74. That's absolutely outrageous.
13 It's supposed to be one person, one vote. There
14 should be no fractions of any votes calculated
15 anywhere.

16 But we're getting more and more information
17 that the algorithm ran in lots of places,
18 including in the red states and against red
19 counties. And that's probably what they ran in
20 2016 that left Hillary Clinton with the popular
21 vote total being higher than Trump's. That's the
22 only thing that explains that, frankly. And it
23 explains a lot of other things, too.

24 And then there are particular places where
25 so many Trump people poured out to vote on

1 election day, which is what we all encouraged them
2 to do, to wait for election day and vote in person
3 to make sure their vote got counted, that they
4 broke the algorithm in all the swing states that
5 they had pre-calculated, based on the pre-election
6 voting. And -- and that's why the voting had to
7 count -- stopped counting in multiple states that
8 night when we saw it all happen. And then
9 suddenly, you know, Biden votes appear.

10 We've now traced some of the injected fake
11 ballots to a mail facility in New York that isn't
12 even authorized to take mail, it takes freight.
13 And -- and there's a -- several hundred-thousands
14 of ballots we have information and evidence now
15 was put through that mail facility, and that's how
16 it was injected into the system to then get to
17 different states, like Pennsylvania where all of a
18 sudden hundreds of thousands of votes manifested
19 themselves after counting had supposedly stopped.

20 SPEAKER: Sidney?

21 SIDNEY POWELL: Yes.

22 SPEAKER: Yeah. Can you hear us?

23 SIDNEY POWELL: Did I lose you?

24 SPEAKER: Yeah. No, you're fine. Go

25 ahead.

1 SIDNEY POWELL: Okay. So -- SO we've seen
2 every manner and means of fraud that anybody can
3 imagine, but it's the machine fraud that I think
4 is the absolute most insidious; that coupled with
5 the fake ballots that they used to backfill the
6 vote count the night of the election that were
7 shipped through our United States mail service;
8 which is, by the way, a federal mail fraud crime,
9 because we know that hundreds of thousands of
10 ballots were sent that way, and they weren't
11 shranked. (Phonetic). So that's -- that's a
12 massive mail fraud offense in more ways than one.

13 SPEAKER: Okay.

14 SIDNEY POWELL: And, of course, we're
15 getting more evidence now, too, on the paper
16 issues. Jovan Pulitzer is in Atlanta now, we've
17 got more information coming out about the internet
18 connections that the Dominion machines had. We
19 know that information was uploaded to them by
20 thumb drive; that was impermissible. There should
21 have been nothing changed on the machines from
22 several days -- maybe even 30 days, I can't
23 remember the exact number before the election,
24 until after the votes were tallied and everything
25 properly counted and accounted for.

1 On the machine we got access to in Antrim
2 County, Michigan -- or the machines, I should say
3 -- they found a substantial flip rate of the
4 votes. And even worse than that, the machines
5 were calibrated to send the vast majority of votes
6 into what's called an adjudication file that
7 Dominion has on their machines, that then allows
8 an individual to decide where those votes go.

9 Well, we're talking about hundreds of
10 thousands of votes going in an adjudication file,
11 I think in Fulton County, Georgia, they found that
12 over 92 percent of the votes went into an
13 adjudication file. That's hundreds of thousands
14 of votes that were then all of a sudden -- any
15 number of them disappeared for Trump or reappeared
16 as if they were Biden votes to a substantial
17 percentage. In fact, one number at one point was
18 186,000 votes all for Biden, with -- those are
19 mathematical and statistical impossibilities.
20 It's like flipping a coin the same time, and it's
21 186,000 times and it lands on heads every time.
22 It does not happen.

23 So there are all kinds of charts and
24 mathematicians and statisticians who have looked
25 at these things from every different angle, and

1 there's no way that Donald Trump lost this
2 election by any legitimate means. There are
3 multiple means of fraud, but the two biggest are
4 the false ballots that were fed into the machines
5 after they stopped counting on election night in
6 all the swing states -- and probably other states,
7 too -- and then the embedded machine fraud -- and
8 that's why we want to audit the machines.

9 Everyone who cares about fairness and
10 integrity in this election or wants us to ever
11 have another free and fair election, this must
12 stop right now. It cannot continue past this
13 election or there will never be another free
14 election.

15 SPEAKER: Sidney, we have a couple
16 questions. We -- we understand how rampant the
17 fraud is, but time does not seem to be on our
18 side.

19 Can you describe the January 6th joint
20 session of Congress constitutionally, if these 11
21 to maybe a few more senators go in on their
22 petition requesting a stay of -- of certifying the
23 elect- -- Electoral College on January 6th, and
24 asked for 10 days to set up a council to review
25 the fraud, could you go over the -- the

1 constitutional of that, what the Vice President
2 can do, does he have an authority presiding to
3 stay the -- the voting at that time?

4 SIDNEY POWELL: Yes, I think either he or
5 the President, frankly, could stay the vote. And
6 I think it should be mandatory that an independent
7 forensic audit be conducted of a number of the
8 Dominion voting machines. And, frankly, other
9 voting systems. It's not exclusive to Dominion.
10 The DNA of the -- of the code that can run the
11 algorithms and -- and accomplish the cheating
12 exists in all the systems.

13 So we don't know exactly how widespread it
14 is. I think there should be a random sampling of
15 at least a dozen different locations in big cities
16 to check what's going on with the machines.

17 For example, in Antrim County, we know that
18 somebody destroyed the adjudication file audit
19 trail for the Dominion machines there. That --
20 that's a violation of federal law in and of
21 itself. Somebody should be prosecuted for that
22 right now.

23 And while I'm on the subject of
24 prosecution, just let me say how appalled I am at
25 our Department of Justice and FBI for not being

1 all over this. They are obviously part of the
2 problem. I have maintained for a long time that
3 this software probably initiated with the CIA, and
4 our own government is implicated in a lot of the
5 wrongdoing here; and that's why the cover-up is so
6 massive, and there's so much resistance, aside
7 from the trillions of dollars of global wealth and
8 all the corrupt dictators that have been installed
9 around the world, people thinking they're actually
10 voting for the person they want, and instead their
11 vote is rigged by this kind of system.

12 As far as your cases, do -- do you have
13 anything that's set to go before the Supreme Court
14 in the next couple of days, we saw that Justice
15 Roberts -- I think it was one of your cases, would
16 not hear it until I think after the certification
17 or after Inauguration Day; is there --

18 SIDNEY POWELL: Right. That's another
19 point of -- of being disgusted with our current
20 system. We -- we're really seeing institutional
21 failure at every level of our government. It's --
22 it's terrifying, frankly, to have the republic of
23 the United States of America, the last great
24 country in the free world, in this sort of
25 position with the complete institutional failure.

1 But the Supreme Court isn't even going to
2 meet again until the 8th, and we have four cases
3 pending there involving the states of Arizona,
4 Michigan, Wisconsin and Georgia. Any three of
5 which, if I recall correctly, are sufficient to
6 flip the election.

7 There are also a couple of Pennsylvania
8 cases pending, fraud was rampant in Pennsylvania.
9 In fact, we know that several hundred thousand
10 ballots were trucked there to backfill the night
11 of the election. And, of course, we've seen bins
12 of them being unloaded from underneath the table
13 in Fulton County, Georgia on video.

14 So anybody that's saying there's no
15 evidence is not looking at the evidence, and is
16 either willfully blind, corrupted by the Chinese
17 communist party, blackmailed by the Chinese
18 communist party, or has some kind of skeleton in
19 their closet that somebody else is holding over
20 them. There's no other logical rational excuse
21 for any intelligent person not to see the blatant
22 fraud here. They took the two worst candidates in
23 the history of the republic, probably, and crammed
24 them up our nose with fraud, so blatant that
25 multiple mathematicians the night of the election

1 saw it happening from all over the country.

2 SPEAKER: If we can just walk through that
3 plan that Ted Cruz is leading with the 11 or 12
4 Senator -- assuming the Vice President or the
5 President agrees to stay the count on January 6th
6 for 10 days. It's a -- not a mandatory
7 commission, a commission is established, they come
8 back and then what? They present it and there has
9 to be a -- a vote be- -- in the House and the
10 Senate to override, where does it go from there?

11 SIDNEY POWELL: Well, I have had my head
12 down working myself, and I can't say that I'm
13 completely familiar with Senator Cruz's plan.
14 Personally, I'm not in favor of some sort of
15 political commission that goes in to look at that.
16 We need computer and cyber experts. There is
17 evidence out there already that there was foreign
18 interference in this election, and until credible
19 professional law enforcement, cyber security
20 experts, military experts, a combination of the
21 above, look at what happened in the Dominion
22 machines and certifies that under penalty of
23 perjury and produces the audit trails and all the
24 paper and everything else, no one should be
25 satisfied with the -- the fraudulent result of the

1 -- of the, quote, Biden election, end quote.

2 If there's nothing to hide, they should be
3 hiding nothing.

4 SPEAKER: Jim, you have a question?

5 JIM: Yeah, I -- I do, Sidney. Thank you
6 for coming on with us, and thank you for paying
7 the price. None of us can probably imagine the
8 price you are paying for standing for truth, as
9 you are.

10 When Mario alluded to we're running out of
11 time, that's an understatement; we are out of
12 time, we're three days away from a major event in
13 D.C.; as we know, 17 days away from a scheduled
14 inauguration. Some of what you're describing that
15 needs to happen sounds like it would be court
16 cases and forensic work, it would be over the next
17 two years to solve. We don't have that, at least
18 not right now.

19 So what are our options -- what -- in all
20 the times that you or anybody else for this issue
21 has taken something to court, has -- as -- has
22 there ever been a court that has listened or they
23 rejected every case that's come before us, have we
24 had any wins in court so far?

25 SIDNEY POWELL: No, they're throwing them

1 all out on the DNC talking points of no standing,
2 no matter who you are; or they're just sitting
3 there like they are at the Supreme Court now,
4 where we know our cases have standing because we
5 represent electors in my four cases, who have
6 standing under the constitution. They're named in
7 the constitution. They clearly have standing.

8 But the District Court poured us out on
9 that in Georgia, and so did the courts in the
10 other three states, because that's the litany the
11 -- the democratic machine or the establishment
12 machine -- whatever you call it -- are pushing
13 here.

14 And -- and like I said, the corruption is
15 far wider and deeper than any one of us would have
16 ever imagined. It's really shocking to not have
17 Article 3 judges who are given lifetime tenure for
18 this very reason, stand up for the rule of law and
19 the future of our republic.

20 They say: Oh, it's political, so they
21 really don't want to get involved in it. And then
22 they make up these legalistic excuses for not
23 doing their jobs. None of which is acceptable.
24 But we know people have been threatened, our
25 witnesses have been threatened, people have been

1 intimidated right and left. I wouldn't be
2 surprised if that hadn't happened to some judges,
3 too.

4 SPEAKER: So there's not been a single
5 judge who has listened to a single case; is that a
6 true statement?

7 SIDNEY POWELL: No, that's true. No judge
8 has actually listened to the evidence. And the
9 few that have ruled on anything have done it so
10 fast on purely legalistic grounds, not looking at
11 the evidence, that even if they say: Oh, yeah; I
12 looked at the evidence -- well, we're talking 270
13 pages of affidavits, 530 pages of affidavits.

14 And by the way, all the affidavits and
15 evidence -- at least of the time of our Supreme
16 Court filing are uploaded and available for people
17 to look at and download free on the website
18 defendingtherepublic.org or kraken-wood.com or
19 Sidneypowell.com.

20 Read the evidence for yourself. There are
21 videos online that show the Dominion activities
22 and other activities that are clearly illegal.
23 It's -- it's everywhere. It's available on
24 Twitter. Educate yourself. Look for yourself,
25 judge for yourself.

1 JIM: Sidney, to what extent is there a
2 healthy system of coordination between a Senator
3 -- such as Senator Cruz, for example -- or Holly
4 from Missouri, and state senators -- I -- I just
5 came off a call where I -- where I saw what it
6 seems to me to be a lack of communication
7 coordination and -- and --

8 SIDNEY POWELL: That also --

9 JIM: -- other persons -- other persons
10 like yourself, how connected are you all so you're
11 moving as a common force together as one?

12 SIDNEY POWELL: Well, I think you all are
13 doing a lot to facilitate that -- that common
14 goal. I mean, it's been such a short amount of
15 time and we've been dealing with such a flood of
16 information, nothing has been as coordinated as it
17 certainly should have been and would have been
18 more effective if it had been.

19 In fact, there have been unnecessary
20 factions, from my perspective, of what to focus on
21 and how to focus on it. But we're -- where we are
22 now -- and I would encourage all of you to start
23 with your -- bombarding your state legislators
24 tonight, because they are the closest to the
25 people, and they should be the ones to decertify

1 or decide to stay their electoral slates tomorrow
2 so it doesn't even get to Congress on the 6th.

3 SPEAKER: Yeah, I think Rob is going to go
4 over that. If you can -- everyone can put your
5 Zoom on -- on mute. Lance, do you have a question
6 for Sidney -- Sidney?

7 LANCE: Yeah. Well, I think these -- I'm
8 just curious, and it might not be something,
9 Sidney, that you can address, but the mystery to
10 many of us who are kind of newly engaged with --
11 with the -- the whole civic process, I think the
12 whole country is getting an education -- I
13 understand --

14 SIDNEY POWELL: Yeah, a painful one.

15 LANCE: It's a painful one, yeah. And I'm
16 mystified at the legislators in the state level
17 that are Republican that are not moving more
18 aggressively, because you would think that they
19 would have an interest in getting reelected, then
20 I realized that our voices and -- we, as a people,
21 have not actually been communicating with them;
22 we've just been trusting that the civic process of
23 election -- what's going to work.

24 So now they're suddenly getting bombarded
25 and they're having an awakening like, oh, my gosh,

1 how many people are -- exist out there that are --
2 that are upset about this?

3 But why do you think there's only 11
4 Senators standing with Ted Cruz, why is Josh --
5 why is it that there aren't more Senators that are
6 actually engaged with this, is -- do you have a --
7 a thought on that, is that the power of money and
8 -- and --

9 SIDNEY POWELL: It -- it is the -- yeah,
10 it's the power of money, it's the power of
11 lobbyists. It's the fact that we don't know
12 exactly how long this has been going on. We don't
13 know how many of our Republican officials have
14 been elected by virtue of machine fraud from any
15 of these voting machine companies.

16 We know that in 2019 Elizabeth Warren and
17 Amy Klobuchar and four others signed letters
18 expressing serious concerns about the
19 vulnerability and problems with the machines.

20 We know that Carolyn Maloney was
21 complaining about it in New York back in 2013.

22 Apparently the problem has existed far
23 longer than I knew about it. But, again, I wasn't
24 political and wasn't paying attention, like a lot
25 of us are out there trying to support our kids and

1 do our jobs and do everything else we're supposed
2 to do, and pay our taxes, while these people are
3 ripping us off and taking boondoggles to communist
4 China and wind up getting blackmailed as a result
5 of the trip.

6 You know, we don't know how many are in the
7 pocket of communist China. We know Dianne
8 Feinstein had a communist (inaudible) spy for 20
9 years. We know Eric Swalwell was sleeping with a
10 communist spy. We have no idea how many have
11 infiltrated our universities and politics and
12 everything else, but it's a lot. They're stealing
13 our technology right and left.

14 This is a foreign interference in our
15 election from communist China and Iran, and nobody
16 wants to admit it, because it shows how vulnerable
17 we are, how vulnerable we have been, how many
18 government agencies have failed to do their jobs
19 for at least a decade. This isn't the first year
20 this happened.

21 SPEAKER: Was the Dominion --

22 SIDNEY POWELL: It's worst.

23 SPEAKER: Was the Dominion software
24 involved -- I thought I just heard you say once
25 that -- that 130 votes were processed by that

1 software when Obama was elected; is that -- was
2 this software being used back then?

3 SIDNEY POWELL: I'm sorry. You're breaking
4 up. But yes, I'm sure the software was used in
5 2018, and somebody's given me a massive amount of
6 data we haven't had time to deal with yet, that it
7 was used in 2016 when Hillary won California over
8 Bernie.

9 My witness told me that Bernie was told
10 about it and instead of outing it, he sold out.

11 SPEAKER: Okay.

12 JIM: Sidney, we were talking about
13 coordination, we know that you met with the
14 President -- I guess about two weeks ago, had --
15 had a good meeting or meetings with him, and then
16 we read the press where you were not allowed to
17 speak to him -- et cetera, et cetera. Have you
18 been in touch directly or indirectly, if you can
19 -- if you can share -- with the President as far
20 as potential coordination?

21 SIDNEY POWELL: I have not been in touch
22 about that. I had a very brief conversation
23 later, he is aware of the fact that people have
24 kept me out. I don't know the reason for that.

25 SPEAKER: Okay. Jim?

1 JIM: When you were -- or -- the language
2 you were using a moment ago was focused on the
3 future elections, obviously based off what has
4 happened in 2020, I -- I had a bizarre question,
5 and that is: If you're successful -- and we pray
6 you are -- in proving the illegalities of the 2020
7 election, and maybe others as well, but
8 particularly the 2020 presidential election, what
9 is -- is there anything provided in our
10 Constitution that would address retroactively a
11 President who might have already been installed on
12 January 20th of 2021, if it's later --

13 SIDNEY POWELL: No, that's -- that's --
14 yeah, that's what concerns me. We have to be able
15 to fix this now, and the inauguration can be
16 postponed if necessary. But the fraud -- the
17 fraud cannot -- the fraud cannot be allowed to
18 stand now.

19 SPEAKER: A -- an inauguration can be
20 legally postponed?

21 SIDNEY POWELL: Yes, the inauguration can
22 be postponed. It's happened at least once before
23 in -- in our history maybe more than once.

24 SPEAKER: Does the current (inaudible) --

25 SIDNEY POWELL: But yes, it's a -- it's a

1 national emergency, frankly. The foreign
2 interference in the election that we know is
3 documented already by the FBI and the CISA,
4 triggers the President's powers under the election
5 infrastructure and other election insecurities --
6 or whatever the last Executive Order 13848 was on
7 the election interference, and that allows him to
8 do anything he needs to do. It triggers all his
9 national emergency powers.

10 So, yes, the election inauguration and
11 everything could be postponed.

12 SPEAKER: And the current President remains
13 as President past January 20th?

14 SIDNEY POWELL: Yes.

15 SPEAKER: Okay.

16 SPEAKER: Even though it appears that DOJ
17 and FBI have gone dark, do you know -- is there
18 any hope that they are doing something and we'll
19 hear something soon, as far as the foreign
20 interference with our Deep State?

21 SIDNEY POWELL: Well, if the report I read
22 was correct about Senator Cruz's meeting at the
23 White House that prompted his change of heart, he
24 was briefed by DOJ and by some in the intelligence
25 community, apparently, about the foreign

1 interference; and DOJ is starting to do something
2 about it.

3 But there was a lot of domestic
4 interference, as well as foreign interference.
5 People no doubt acting as foreign agents here
6 domestically. It's -- it's a big widespread
7 problem, and it has to be addressed now. We
8 cannot sweep it under the rug again.

9 SPEAKER: Okay. And that's where if we can
10 get 10 -- a 10-day stay on the electorate
11 determination on January 6th, it could help; at
12 least expose that to the public and to the
13 Congress, if we had a few --

14 SIDNEY POWELL: Exactly. And that 10 days,
15 frankly, is enough to do a substantial forensic
16 audit in multiple states, on multiple machines.
17 We had a plan to do a -- a -- a fair sampling of
18 them in less than 10 days several weeks ago. And
19 that same plan could be triggered now, I just
20 don't know why -- keep -- people keep stalling on
21 it, other than there's massive pressure to ignore
22 all of this and just -- you know, quote, move on,
23 end quote, and never have a free country again.

24 SPEAKER: Jim -- Jim has another question
25 just for all the listeners that are here in this

1 prayer meeting. I mean, one of the things
2 specifically -- and you can tell us what else to
3 -- to pray against the massive pressure that the
4 -- the Lord can move and -- and encounter that
5 pressure against those that are exerting the
6 pressure, which is intimidation and control, to
7 try to silence the truth to come out.

8 Jim?

9 JIM: Sidney, if you could give us in
10 layman's terminology the chief talking points,
11 you've said quite a bit tonight, but if you were
12 to -- if you were to be able to arm -- there --
13 there's seven -- almost 8,000 of us on this call
14 right now, 8,000 screens, it could be many more
15 people than that, and many more will watch later,
16 if you were to give us three or four talking
17 points that a layman can understand and could
18 articulate to other people, what would those be?

19 SIDNEY POWELL: Well, I would start with
20 the fact that it was a mathematical impossibility
21 for the things we saw happen on election night to
22 happen. Any person with math expertise or
23 statistical expertise can see that people
24 identified it from various places across the
25 country -- in fact, around the world. I would

1 encourage everybody to look -- never in my
2 lifetime have so many people come forward at great
3 personal risk, loss of their jobs, being harassed,
4 being threatened.

5 A worker in Alabama -- or Georgia just had
6 five shots fired through the window of her home
7 last night working with Jovan Pulitzer on the
8 ballot issues in Georgia right now. People have
9 taken -- patriots have come forward all across
10 this country to stake a -- take a stand against
11 this massive fraud.

12 And the bottom line is, if there's nothing
13 to hide, why are they fighting so hard to hide it?
14 This is the one country on earth where any
15 election is supposed to be completely transparent,
16 where all the records are required to be kept by
17 federal law. There should be no question about it
18 whatsoever.

19 And any independent person should be able
20 to go and see and count whatever needs to be
21 counted, whether it's on a machine or whether it's
22 paper; but running the same fraudulent ballots
23 back through the same fraudulent machines is not a
24 valid recount.

25 And the fact that they are trying to avoid

1 having any of the machines examined forensically
2 in any other place in Antrim County, Michigan,
3 tells me all I need to know to know that they are
4 hiding massive evidence of fraud that goes a lot
5 farther back and wider than this election, and
6 that there's no telling how many people have
7 benefited from it here and around the world,
8 including some Republicans.

9 SPEAKER: Your first talking point --

10 SIDNEY POWELL: So what we need to pray for
11 is the truth. We need to pray --

12 SPEAKER: Your first talking point --

13 SIDNEY POWELL: -- that the truth comes
14 out, whatever that is, and the chips fall where
15 they have to fall.

16 SPEAKER: Sidney, can you continue with --
17 that's very persuasive, the mathematical
18 impossibilities; and the second one I wrote is why
19 would you hide it, why wouldn't it be in
20 everybody's interest to know what the truth is.

21 Any other key talking points you can give
22 to us? Because there's quite a people -- quite a
23 few people writing down what you're saying to use
24 as talking points, Facebook and other -- other
25 conversations.

1 SIDNEY POWELL: Yes. All the thousands of
2 witnesses who have come forward at great personal
3 risk to give their personal testimony of the fraud
4 they've seen, and the video evidence of fraud
5 happening in front of our eyes. Plus hundreds of
6 thousands of -- of, quote, mailed ballots being
7 brought into the system fraudulently through a
8 freight facility in New York. That doesn't happen
9 when they're real ballots.

10 SPEAKER: Uh-huh. Thank you so much.

11 SIDNEY POWELL: And -- and Dominion
12 shredding everything -- I mean, Dominion has been
13 shredding things right and left. Within a week of
14 the election they shredded thousands of pounds of
15 paper. They moved their offices just across town
16 in Denver -- and I believe elsewhere. The
17 shredding truck pulled up -- I don't even know how
18 many thousand pounds were shredded within that
19 first week.

20 And -- and on top of that, they're
21 shredding, literally as we speak in Georgia, they
22 started it again the night Jovan Pulitzer
23 testified in front of the Georgia Senate
24 Committee, I think it was, and showed how the
25 machines could be hacked in real-time in the

1 runoff election in Georgia.

2 SPEAKER: Sid- -- Sidney, we want to thank
3 you so, so much for your time, for all that you've
4 been doing. I know you're -- you're very, very
5 busy. We just want to take one more minute to
6 pray for you, for your legal team, for the -- for
7 the Lord to be with you.

8 Pam, can you please pray for Sidney.

9 PAM: Sure. Lord God, we thank you for
10 Sidney Powell and her entire team as they have
11 tirelessly fought for truth to come out. And God,
12 we pray for her that you would surround her with
13 warring angels. And God, we plead the blood of
14 Jesus over her. And we ask you to minister to
15 her, Lord, and through her.

16 God, we pray that in these next few days,
17 Lord, that there would be such a turning. And
18 Lord, you would give her strategies from heaven.
19 This is a -- a spiritual battle with angels and
20 demons warring over America. And God, we cry out
21 tonight on this prayer call for strategies from
22 heaven to be given to her, the legal team, for our
23 President and his team, Lord God, that you will
24 move mightily.

25 And we thank you, Lord. Lord, I -- I can't

1 even imagine the amount of warfare that is -- is
2 coming against her, Lord, as she is fighting for
3 righteousness and truth, and for the American
4 people.

5 And God, I ask you to give her strength,
6 both physically. And God, just legally, Lord,
7 that you give her such strategies. And we thank
8 you, God. And we thank you ahead of time, Lord,
9 for victory. And Lord, that we are going to see a
10 turning because, God, there are multitudes around
11 our country and around the world, standing in the
12 gap, crying out for truth.

13 Lord, keep your hand upon Sidney and her
14 team, and continue to use them. And I thank you
15 for her, Lord. And I thank you for her team.

16 And Lord, we do declare victory. And we
17 thank you in Jesus name. Amen.

18 SPEAKER: Amen. Thank you so much, Sidney.

19 SIDNEY POWELL: Thank you so much. Thank
20 you very much.

21 SPEAKER: We'll continue to be praying for
22 you and being in touch with you. Thank you so
23 much.

24 SIDNEY POWELL: Thank you. And pray for
25 our President and Vice President, and for the

1 country as a whole. It's imperative we remain the
2 beacon of freedom for the entire world.

3 SPEAKER: Amen. We will. Thank you so
4 much.

5 SIDNEY POWELL: Thank you. Bye-bye.
