It would be malpractice to litigate against the Department of Justice without reading this book."

— — Brendan Sullivan Jr. | Williams & Connolly LLP

"This book reads like a cross between investigative journalism and courtroom drama."

— — Jane Davis | Former lead prosecutor, District Courts, Bexar County, Texas

That our government is corrupt is the only conclusion. This book helps the people understand the nature of this corruption—and how it is possible for federal prosecutors to indict and convict the innocent rather than the guilty. Every business person— and anyone— who values freedom should read and heed the warnings of this compelling work."

... | CEO & Author

"This book should be required reading of a serious concern about our criminal justice system. It does not live up to its vaunted promise for citizens of a free society. This is an important stake in the ground that does."

— Alex Kozinski
