FILE NAME:
One-on-one With Sidney Powell
(5:08 min)

TRANSCRIPT OF VIDEO-RECORDED INTERVIEW
SIDNEY POWELL
ERIC BOLLING

Transcribed By:
TERRI NESTORE
CSR No. 5614, RPR, CRR

1 ERIC BOLLING: Former federal prosecutor and
2 General Michael Flynn's attorney, Sidney Powell.

3 Thank you for joining us.

4 Counsel, tell us a little bit about the
5 challenges that the Trump administration is facing, and
6 what are your thoughts on whether or not they will be able
7 to flip any states.

8 SIDNEY POWELL: They're facing an election that
9 was absolutely rigged. It is -- we are soaking in
10 information through fire hoses of complicated mathematical
11 alterations to the votes. We have identified the system
12 capability that does it. It does in fact exist,
13 regardless of what the name of it is. It works through
14 the Dominion company's voting machines that were in 30
15 states and does indeed alter and flip voting results.

16 ERIC BOLLING: So can you tell me right there --
17 I understand that.

18 So there are these Dominion machines that were
19 voting machines and as you point out, they're in multi,
20 multiple counties across the country that may have
21 changed. So how do you know this? Where is the --
22 listen, I'm not pushing back on you because I know
23 everyone's going crazy right now, but is there proof of
24 that?

25 SIDNEY POWELL: Yes. Well, the Dominion machines

1 are in 30 states. We're identifying the companies that
2 created the software. They have done this in other
3 countries around the world. It's incredibly disturbing,
4 and we will hopefully have evidence of it before the end
5 of the week that we can produce publicly.

6 And the Justice Department and the FBI and the
7 intelligence agencies, I think have known about this
8 before, so why nothing's been done about it yet is beyond
9 my comprehension, but it's fixing to go public because I'm
10 not going to stand by and watch the American public be
11 defrauded of their chosen leader in a free country, a
12 country that's supposed to be free, not run by Venezuela
13 or China.

14 ERIC BOLLING: Sidney, very important
15 information, news, you're breaking here. Is it a software
16 glitch or something more nefarious?

17 SIDNEY POWELL: No, it's a feature of the system
18 that was designed with a backdoor so that people could
19 watch in realtime and calculate with an algorithm how many
20 votes they needed to change to make the result they wanted
21 to create.

22 ERIC BOLLING: How did you find out about this?

23 SIDNEY POWELL: People have come to me with
24 information. I think when people realize there's somebody
25 they can trust, that will actually do something about it,

1 they speak up.

2 We have a lot of patriots in this country. They
3 are absolutely fed up to the gills with corruption at
4 every level of government. They have no trust in our
5 public institutions now, and we will not let this election
6 be stolen or any cheating to survive.

7 ERIC BOLLING: So let me get this straight --
8 it's a real important point here. Dominion voting
9 machines were in numerous states, numerous counties.
10 There's some sort of software backdoor, not unlike most
11 phones will have a backdoor, but this will actually
12 calculate and tell the person accessing the backdoor what
13 type of voting percentages and what type of numbers are
14 needed to change the win for a certain party, for a
15 certain candidate?

16 SIDNEY POWELL: Exactly. They can watch the
17 voting realtime, they run a computer algorithm on it as
18 needed to either flip votes, take votes out or alter the
19 votes to make a candidate win.

20 ERIC BOLLING: So that's different. Now you're
21 -- this is even different. And I just really want to be
22 very careful here and be very meticulous about this. It's
23 one thing to be able to watch it and decide how much more
24 input you need to change, to change the number, but now
25 you're saying there's an actual way to change the total,

1 the vote tallies within the system?

2 SIDNEY POWELL: That's exactly right.

3 ERIC BOLLING: That is a very, very big claim
4 there. I mean, that would be voter fraud defined, right
5 there. What's the next step?

6 SIDNEY POWELL: It's massive criminal voter
7 fraud, writ large, across at least 29 states it could have
8 been happening. Any time a voting machine was connected
9 to the internet -- and we have evidence that many were --
10 it was obviously happening.

11 It's obvious from the algorithm and the
12 statistics that our experts are tracking out for batches
13 of votes and when the curves changed, and it's going to
14 blow the mind of everyone in this country when we get it
15 all together and can explain it, with the affidavits and
16 the experts that have come forward.

17 ERIC BOLLING: All right. Sidney, we're going to
18 leave it there and we're going to look into it and we're
19 going to watch for further information coming out from
20 your camp, I guess Rudy Giuliani's camp as well, the Trump
21 camp. So Sidney Powell, thank you very much.

22 SIDNEY POWELL: Thank you.

23 ERIC BOLLING: America This Week has reached out
24 to Dominion Voting for a response --

25 (End of recording.)

C E R T I F I C A T E

I, TERRI NESTORE, Certified Shorthand Reporter/
Transcriptionist, do hereby certify that I was authorized
to transcribe the foregoing recorded proceeding, and that
the transcript is a true and accurate transcription of my
shorthand notes, to the best of my ability, taken while
listening to the provided recording.

I further certify that I am not of counsel or
attorney for either or any of the parties to said
proceedings, nor in any way interested in the events of
this cause, and that I am not related to any of the
parties thereto.

Dated this 18th day of December, 2020.

TERRI NESTORE, CSR 5614, RPR, CRR
