Joe Howe is organizing this fundraiser.

I was sitting here thinking about the upcoming rally in DC on Jan 6th 2021. I know it's taken a lot of planning just to get me and a few other Patriots in line to go. I was wondering what I could do to help other Patriots on this day. I'm reaching out with a idea. That idea is to have other Patriots who can't make the trip help another patriot who is attending. Whatever money I raise I plan to help Patriots that day with food, price of lodging, gas....heck maybe even a cold beer!. I am planning to document it all on my Parler account that day at Joehowe82. Feel free to check me out over there and see that I am verified. I'm doing what I can but with help I can do even more! #helpstopthesteal #Trump2020

**CERTIFICATE OF AUTHENTICITY OF DOMESTIC
RECORDS PURSUANT TO FEDERAL RULES OF
EVIDENCE 902(11) AND 902(13)**

I, Denise Smith, attest, under penalties of perjury by the laws of the United States of America pursuant to 28 U.S.C. § 1746, that the information contained in this certification is true and correct. I am employed by GoFundMe, Inc. (“PROVIDER”), and my title is Trust & Safety Specialist. I am a custodian of records for PROVIDER, and I am qualified to authenticate the records attached hereto because I am familiar with how the records were created, managed, stored, and retrieved. I state that the records attached hereto are true duplicates of the original records in the custody of PROVIDER. The attached records consist of:

all records requested in GoFundMe's custody or control
[GENERALLY DESCRIBE RECORDS (pages/CDs/megabytes)]

I further state that:

a. all records attached to this certificate were made at or near the time of the occurrence of the matter set forth by, or from information transmitted by, a person with knowledge of those matters, they were kept in the ordinary course of the regularly conducted business activity of PROVIDER, and they were made by PROVIDER as a regular practice; and

b. such records were generated by PROVIDER’s electronic process or system that produces an accurate result, to wit:

1. the records were copied from electronic device(s), storage medium(s), or file(s) in the custody of PROVIDER in a manner to ensure that they are true duplicates of the original records; and

2. the process or system is regularly verified by PROVIDER, and at all times pertinent to the records certified here the process and system functioned properly and normally.

I further state that this certification is intended to satisfy Rules 902(11) and 902(13) of the Federal Rules of Evidence.

CERTIFICATE OF AUTHENTICITY OF DATA COPIES FROM AN
ELECTRONIC DEVICE STORAGE MEDIA PURSUANT TO FEDERAL
RULES OF EVIDENCE 902(11) and 902(14)

I, J. Aaron Kiger, attest, under penalties of perjury by the laws of the United States of America pursuant to 28 U.S.C. 1746, that the information contained in this certification is true and correct.

1. I am employed by the Federal Bureau of Investigation (FBI) and my title is Digital Forensic Examiner. I have been employed by the FBI for over (13) years. Since 2016, I have been assigned to the Kentucky Regional Computer Forensics Laboratory (KRCFL). While assigned to the KRCFL, I have had training and experience acquiring evidence from digital devices, including mobile devices. Specifically, I have attended mobile device training on the tool(s) used for this case.
2. I am qualified to authenticate data copied from the electronic device listed below because of my experience and training, and I created or had personal involvement in the creation of the digital extraction below:

Original Device	Specimen ID	Extraction Identifiers
Samsung Galaxy A21 Model: SM-S215DL Agency Item: 1B1	KRC005764	File Name and MD5 Hash: \\LSKR-F03\Cases03\KRC221025001\Source\UFED samsung SM-S215DL 2022_12_01 (001)\EXTRACTION_FFS 01\EXTRACTION_FFS.zip FAA38E14E9D7775CAA570BDA43901BEF

3. The extraction identified above was made on December 1, 2022, using specialized forensic acquisition technology from Cellebrite. In my training and experience, this forensic tool creates an accurate and reliable copy of data contained on digital devices and I have regularly relied on this tool to acquire digital evidence in the past.
4. Furthermore, I know the forensic extraction process was complete and accurate because the forensic software generated a hash (i.e., digital fingerprint) of the resulting extraction file and because the software expressly indicated the extraction was successful.
5. On December 1, 2022, I utilized a forensic software technology from Cellebrite, named Physical Analyzer, to process the extraction and subsequently generated a UFED Reader cell phone digital report. The UFED Reader digital report was made available to the requesting agency for investigative review. I know the UFED Reader digital report was complete and accurate because the forensic software expressly indicated the process was successful and no errors were detected.
6. In accordance with Federal Rule of Evidence 803(6) and 902(11), all records attached to or referenced by this certificate:

- a. were made at or near the time by a person with knowledge;
- b. were kept in the course of regularly conducted activity of the FBI;
- c. and making the records are a regular practice of that activity.

I further state that this certification is intended to satisfy Rules 902(11) and 902(14) of the Federal Rules of Evidence.
