**DECLARATION OF SACHIN VERMA**

I, Sachin Verma, declare the following pursuant to Title 28, United States Code, Section 1746:

1. I am an active Certified Public Accountant with over 20 years of experience. I am currently employed by the United States Securities and Exchange Commission (“SEC”) in Washington, DC, as an Assistant Chief Accountant in the Division of Enforcement. As part of my daily activities, I have performed numerous reviews of financial records in connection with SEC investigations.

2. I submit this declaration in support of the SEC’s Motion for a Temporary Restraining Order and Preliminary Injunctions. The information set forth herein is based upon my personal review of financial records such as bank statements, deposits, cancelled checks, wire transfers, signature cards, and other account documents produced to the SEC by the defendants, Silvergate Bank,

Signature Bank, FedWire and other parties pursuant to subpoenas and document requests (“financial records”) as of this date. My classification and summarization of financial records in this Declaration may change based on additional information that may be produced at a later date.<sup>1</sup> I have cited to bates stamped document where applicable (“record documents”).

3. During the period from April 18, 2019 to April 5, 2023 (the “Relevant Period”), the corporate Defendants and many other corporate entities owned by Defendant Zhao held numerous accounts with two banks in the United States-- Silvergate Bank and Signature Bank.

4. According to their websites, both banks had proprietary networks designed to enable their digital currency and institutional investor customers to send U.S. dollars and euros 24 hours a day between their accounts and the accounts of other bank customers. Silvergate promoted its SEN network as “Real-time USD and EUR settlement between counterparties, used by some of the largest exchanges in the world,” and “enabling near real-time transfers and immediate availability of funds.” Signature promoted its Signet Platform as leveraging blockchain technology to allow its commercial clients to make payments in U.S. dollars 24 hours a day, and “transactions made on the Signet Platform settle in real time, are safe and secure and incur no transaction fees.”<sup>2</sup>

5. I have reviewed account statements produced by Silvergate Bank for the following company accounts: Binance Holdings Limited, Binance Capital Management Co Ltd., BAM Management US Holdings Inc., BAM Trading Services Inc., Binance (Switzerland) AG, Sigma Chain AG, Merit Peak Limited, and Key Vision Development Limited. Many of those accounts participated in the SEN network.

## SIGNIFICANT TRANSFERS

11. Binance Holdings Limited and Binance Capital Management show large deposits and withdrawals from and to Signature accounts for some Zhao-owned companies, and hundreds of millions of dollars have been transferred.

### BIFINITY UAB TRANSFERS BILLIONS OF DOLLARS TO BINANCE COMPANIES

a. Bifinity UAB (fka Binance UAB) is a company located in Lithuania and beneficially owned by Zhao. c. In 2022, Bifinity transferred another \$3.5 billion to the same Binance Holdings Limited account. \$1.2 billion was transferred to an account held by Swipewallet EU OU, another Zhao-owned company. Bifinity sent another \$304 million directly to Swipewallet. Swipewallet thereafter sent \$1.5 billion in outgoing FX wires, in which USD is converted into a foreign currency before transmitting to the beneficiary.

d. As for the rest of the money transferred by Bifinity, Binance Holdings Limited distributed approximately \$911 million to other Binance Holdings accounts, \$697 million to Binance Capital Management, and more than \$415 million to other Zhao-owned companies. One of those Zhou-owned entities thereafter paid \$62.5 million to a personal account held by Zhao, and

in mid-March 2023 paid almost \$47 million to a company beneficially owned by Guangying Chen. On March 14, 2023, that account wired \$29,613,891.93 to an account held by Binance AP Holdings which was then wired out to the company owned by Guangying Chen that same day, transfers that are summarized here:

#### **BINANCE COMMINGLED FUNDS AT MERIT PEAK FOR FURTHER TRANSFER TO PAXOS**

12. Millions of dollars from Binance related accounts were commingled in Merit Peak's accounts. For example, in 2021, funds from Key Vision (\$11.05 billion), Prime Trust (\$1.1 billion) (through BAM Trading) and Bifinity UAB (\$6.3 billion) (through Binance Holdings Limited) were transferred to Merit Peak and Merit Peak transferred all of that money as part of its transfers of almost \$20 billion to a foreign affiliate of Paxos in 2021, summarized as follows:

#### **LARGE AMOUNTS OF MONEY MOVE ACROSS BINANCE AND ZHAO-OWNED BANK ACCOUNTS**

13. The transactions in many of the Binance or Zhao-owned company accounts held at Silvergate Bank and Signature Bank show large amounts of money

flowing in and out of the accounts. The large incoming credits are followed by outgoing debits within days, with the result that the accounts maintain a relatively much lower balance at month's beginning and end.

14. For example, in one Silvergate Binance Holdings 2022 account statement, money is credited monthly from another Binance Holdings account, accounting for most of monthly credits, and most of those credits are debited to Binance Capital Management Limited and Binance Switzerland in interbank transfers. In February 2022, for example, the account has a beginning balance of \$7.6M and an ending balance of \$7.7M, but in that month \$20 million was deposited from another Binance Holdings account, \$11M was wired to Binance Switzerland AG, and \$6M was wired to Binance Capital Management, as summarized here:

<b>Feb 2022 Binance Holdings Limited Silvergate Bank Account</b>	<b>Deposits</b>	<b>Withdrawals</b>
From Binance Holdings Limited	\$20,000,000	
To Binance (Switzerland) AG		\$11,000,000
To Binance Capital Management Co Ltd		\$6,000,000
Other	\$94,478	\$2,944,633
<b>Total</b>	<b>\$20,094,478</b>	<b>\$19,944,633</b>

15. This pattern of money flow repeats over months, as summarized here:
