The original copy of the file history of U.S. Patent No. 5,045,321 received from the United States Patent and Trademark Office was missing several pages, including the amendment and declaration discussed in DTX 4A. The missing pages were located in a third party production from the prosecuting attorney and bates labeled with prefix HAM. The HAM bates labeled documents were used as Deposition Exhibits 32 and 33, but are the same documents (minus the cover page of the '321 patent file history) as those included in DTX 4A labeled with prefix TAKEDA.
