Hi,
I will transfer the smaller amounts into the 1933 address before I return it to you. Makes it simpler than it and the one paper wallet is all we need to secure back to you.
I will move 1DU648e9EpcwWTBPykNTASV6A7iaZTHQ? and 14H16G5u5pQ7P36FLMxM6Agg9F5CWVBBz into 1933 shortly. You should see it come in later this week. I have been a little under the weather of late, so forgive any delay. This will add the last 5,400 plus and we can move the small change into this soon after and get the amounts up to the agreed total.

Regards,
Dave

The selected message body contains the following text:

Craig,
 I acknowledge that the Bitcoin wallet (1933phtK3ZgFQNLGSDXvcCn3RzbuAYba) containing 111,114 Bitcoins will be returned to you on the receipt of payment from Liberty.
 The amounts I need to pay are due and the full USD amount will have to be transferred.
 I will return the wallet to you on clearance.
 The computer is up and has been running for a few months now, we have LIMPAC results of several hundred TFlops so I need to finalise this. The people in Panama and Costa Rica that I have procured this from are not know to be forgiving of delays, so I would appreciate it if we have this finalised ASAP.

Dave

Thanks Dave,
I have send the funds via Liberty. As requested, these are in USD. Nothing has come via Au being from the UK company and it is up to you how you now move this.
I am more than happy with it all. The system is running better than I could believe. I would kiss you if you were not so grumpy and if you were half as sexy as Remona ;P

Si,
When you need to contact Signia, the person is Takiana Itzel Sakiana Escobar.

The company is Signia (783956).
5015 St. Global Plaza Tower,
19th Floor
Panama City, Panama.

They will accept communication using Skype and Bitmessage.

The alternate contacts are Richard Duke and Fernando Gracie.

They likely think you are running a gaming software firm and have no idea what Bitcoin is. So they should not get in the way and will just provide bare metal systems.

Dave

Will do

Just let me know if you need anything.

I have finalized all of the payments, so your system and contract is completed. It is all yours in full now. You just need to let it run. For the next few months, if there are no problems, I will leave you to it all. Just take care and try and not tell people what you think of them. As a start.

Dave

Dave
No, R and I are in flux. I never seem to do what is right. Bloody people. She wants me to be nice. I do not do nice. I am honest and I do to the point. NICE - fuck that. I love hwer and I do want her to marry me, but god only knows.

I have an agreement with the ATO. She is hinting that she will marry me when I get my shit together. The problem is that the bastards have tried to get a bankruptcy order before they have the decision overturned. Low. They have already admitted they have lost and I was right, but they are trying to have me bankrupted so they can stop the case before the decision is entered.

They do not know me. They do not know this. I will fight past the end and then some.

CSW

Craig,
You may be a friend, but do not go there.

We have the funds. Thanks for being prompt. I cannot tell you how important that was to me. Your system has cost me more than I expected. We said I would not make more than 10% but the reality is that the exchange rate drop means it is more like 1%.

Is Ramona going to say yes.

Dave

Blanka Dave,
I have send the funds via Liberty. As requested, these are in USD. Nothing has come via Au being from the UK company and it is up to you how you now move this.

I am more than happy with it all. The system is running better than I could believe. I would kiss you if you were not so grumpy and if you were half as sexy as Ramona ;P

CSW

Craig,
I acknowledge that the Bitcoin wallet (1933pnhfK32gFQnLGSDXvqCn32k2buCY6a) containing 111,114 Bitcoins will be returned to you on the receipt of payment from Liberty.

The amounts I need to pay are due and the full USD amount will have to be transferred.

I will return the wallet to you on clearance.

All is good.
I will arrange this as soon as possible. Craig

We will have one of the others do up the final date and account for Professor Rees.

Dave

Hi Dave,
I have the notes and code from Prof Rees. Have no idea why he did not publish all this. Some of the work is remarkable and when you add the code for automata... Astounding.

As soon as I have these systems going I will start on it. The automata for semi-group solutions will save as a long time.

I do not think Prof Rees knows what we offered him, not reward, but we made the deal so it stands. Can you make sure that the others in the trust (I will talk to Uyen) know to use 1LXc28hWx118np5cAbZ5ahFqWqJCuERD to make light of Dr Rees's contribution. Use this as a marker for his part.

I have already setup the following for payment.

I will have Uyen arrange to transfer ownership formally to him at the rate of the day on the 30th June 2013. This way we pay Dave Rees the first 19,470.12 BTC for work he had done for the prior. You will get the details of this from the following addresses:

- 146mH689Kn1yPqyWzkZha4EhEyhYCTWML
- 1S3K6qMjySgw8GpQKv7pbZnEh5cGRJq
- 1C0vCvY8391AJQbHhF77xobxtorSE
- 1PbXv8APSPymdQUM2SvUnhgnFYau1Sp2W
- 1P57592ALX4qEeEaJqWd8MNAEJ8ou75Y
- 168Rc6w3dL4chWHELQwyyw7ahub6er72s
- 19Qz2vM5GZLahG6Cv87DRK7W5YFNGFz

Make sure that trust does its part to get this to him and formally list it all. I know that we are a long way from getting this out, but he needs to get rewarded for what he did and I do not know if he really cares. He seems a little... well he is not really focused on being paid so please make him or Joan take it no matter what!

1LXc28hWx118np5cAbZ5ahFqWqJCuERD is reordred for Strassan. make sure this links to David

Craig

Sr,
When you need to contact Signia, the person is Tatiana Itzel Sakiana Escobar.

The company is Signia (283656).
50th St, Global Plaza Tower,
19th Floor
Panama City, Panama.

They will accept communication using Skype and Bitmessage.

The alternate contacts are Richard Duke and Fernando Grade.

They likely think you are running a gaming software firm and have no idea what Bitcoin is. So they should not get in the way and will just provide bare metal systems.

Dave

Will do

Just let me know if you need anything.

I have finalised all of the payments, so your system and contract is completed. It is all yours in full now. You just need to let it run. For the next few months, if there are no problems, I will leave you to it all.

Just take care and try and not tell people what you think of them. As a start.

Dave

Dave
No, R and I are in flux. I never seem to do what is right. Bloody people. She wants me to be nice, I do not do nice. I am honest and I do to the point. NICE - fuck that. I love her and I do want her to marry me, but god only knows.

I have an agreement with the ATO. She is hinting that she will marry me when I get my shit together. The problem is that the bastards have tried to get a bankruptcy order before they have the decision overturned. Low. They have already admitted they have lost and I was right, but they are trying to have me bankrupted so they can stop the case before the decision is entered.

They do not know me. They do not know that I will fight past the end and then some.

CSW

Craig,
You may be a friend, but do not go there.

We have the funds. Thanks for being prompt. I cannot tell you how important that was to me. Your system has cost me more than I expected. We said I would not make more than 10% but the reality is that the exchange rate drop means it is more like 1%.

Is Ramona going to say yes?

Dave

thanks Dave,
I have send the funds via Liberty. As requested, these are in USD. Nothing has come via Au being from the UK company and it is up to you how you now move this.

I am more than happy with it all. The system is running better than I could believe. I would kiss you if you were not so grumpy and if you were half as sexy as Ramona:P

CSW

Craig,
I acknowledge that the Bitcoin wallet (1933phfk32qFQNLGSDxvqCn32kZbxUY8a) containing 111,114 Bitcoins will be returned to you on the receipt of payment from Liberty.

The amounts I need to pay are due and the full USD amount will have to be transferred.

I will return the wallet to you on clearance.

The computer is up and has been running for a few months now, we have LEIPAC results of several hundred TPO/s so I need to finalise this. The people in Panama and Costa Rica that I have procured this from are not known to be forgiving of delays, so I would appreciate it if we have this finalised ASAP.

Dave

I think I lost money. At times I wonder if it is worth it. We have done deals together for years and we have nothing but code to show for it all.

Do you ever think we should just retire and enjoy some of the money?

Dave

Hey Dave
How does it feel to have been a millionaire? Even for a bit

Hi Dave,
The other 3.5 BTC is in my account.

As discussed, we will mint a few coins to do with SSNs (you) and TRN (me) an use these in this wallet (1933) when we use it again. A while I hope, but with all the changes. I will let you know when I do this. Trying to get on to Government ppl now.

I will inform them of the 173632986 amounts and embed them into the 1933 wallet. As agreed x 2 to remove chance - though little are the odds.

Craig

Dave, there are only 111,110 BTC - not being picky by what are we doing on the last few

Just let me know if you need anything.

I have finalized all of the payments, so your system and contract is completed. It is all yours in full now. You just need to let it run. For the next few months, if there are no problems, I will leave you to it all.
Just take care and try and not tell people what you think of them. As a start.

Dave

Dave
No, S and I are in flux. I never seem to do what is right. Bloody people. She wants me to be rich. I do not do rice. I am honest and I do to the point. NICE - fuck that. I love hwer and I do want her to marry me, but god only know.

I have an agreement with the ATO. She is hinting that she will marry me when I get my shit together. The problem is this the bastards have tried to get a bankruptcy order before they have the dedson overturned. Low. They have already admitted they have lost and I was right, but they are trying to have me bankrupted so they can stop the case before the decision is entered.
They do not know me. They do not know this I will fight past the end and then some.

CSW

Craig,
You may be a friend, but do not go there.

We have the funds. Thanks for being prompt. I cannot tell you how important that was to me. Your system has cost me more than I expected. We said I would not make more than 10% but the reality is that the exchange rate drop means it is more like 1%.

Dave,
I have the wallet. You know... If people knew what it was ...
I mean we sent 1.3million by fedex. There are better ways to send BTC, but really, trying to maintain a level of secrecy. I am amazed we have lasted this long.
The other parts of the loan are with UT, but this will make my search easier. I do not know if I can find the software I need, but I have a few people who may be a start.
Now to have them accept Bitcoin!
There is a guy I met in a mining conference that may show promise.

Received 13/2/13

The screenshot shows the Bitmessage email client interface. At the top, there is a menu bar with 'File', 'Settings', and 'Help'. Below the menu bar are several icons for 'Inbox', 'Send', 'Sent', 'Your Identities', 'Subscriptions', 'Address Book', 'Blacklist', and 'Network Status'. A search bar is located below these icons. The main area displays a list of emails with columns for 'To', 'From', 'Subject', and 'Received'. The selected email is from Dave Kleiman to Craig S Wright, with the subject 'Re: AW: Safe', received on Wednesday, 13 Feb 2013 at 03:11 AM. The email content is displayed below the list, showing a conversation between Craig and Dave regarding Bitcoin transactions and security.

Craig,
You are mad. I am glad to work with you in this, but you are truly something else off this world...

Dave

Dave,

Dr Wright
We understand that you have taken over the management of the account from Mr Kleiman directly.

Carlos will be available when you require help. The online forum is also open. As with our agreement with Mr Kleiman, we require secrecy in all our operations. The Datacentre does not host illegal activities, but we engage in actions that are filtered in countries such as the US. One of your existing clients, RipLife are hosted here. So, you will understand that privacy is paramount. We will not discuss the contract outside of these lines of communication.

Nothing is not noted in the contract, but please note that we do not accept publicity of this deal.

If you publish the agreement all acknowledgement of this contract will be ignored. The extent of this deal is yourself and your company. We will not accept communications from yourself. An appointed director of your company and your legal representative with your digitally signed authority.

Thank you,
Tatiana (Trez) Saldivia Escobar.
