DSS-201801-664

SCR SERIAL: DSS-201801-664

(U) ATTENTION: In this report, Defense Counterintelligence and Security Agency (DCSA) refers to specific cleared contractors in the interest of fully disclosing the details of the suspicious contact to the U.S. Intelligence Community. U.S. cleared companies referenced in this report have not agreed to the disclosure of their identity outside of U.S. government channels. Written products or briefings based on this report should not identify the U.S. cleared contractor without prior approval from DCSA and the companies themselves.

(U) Summary of Information:

a. (U//FOUO) [REDACTED], a cleared contractor (CC), reported suspicious activity by Jack TRICON (USPER) to the Defense Security Service (DSS) on January 23, 2018. TRICON could be using the CC's products pictures and datasheets to market for HIS own company.

2. (U) Details:

a. (U//FOUO) On January 22, 2018, the CC's Facility Security Officer (FSO) received notification of suspicious activity by Jack TRICON. TRICON, co-founder of TRICON MMIC (TM), LLC. (USORG), could be using the CC's products pictures and datasheets to market for HIS own company. TM's business is described on THEIR website as "integrated circuit design and service". Refer to the attachments for the suspicious activity details and NCIS analyst comments.
