Privacy Act System of Record Notice Issuances

A System of Records Notice (SORN) is a formal notice to the public that identifies the purpose for which PII is collected, from whom and what type of PII is collected, how the PII is shared externally (routine uses), and how to access and correct any PII maintained by ED. Agencies must publish SORNs in the Federal Register. Some Federal agencies have responsibility for one or more systems of records which are applicable to all agencies, Government-wide. This negates the need for ED to publish a system notice if it maintains a record under a Government-wide system of records notice
