METAL OPACITY CONSISTENT WITH BULLET WITHIN CHEST REGION. FRACTURED RIGHT ELBOW WITH BULLET LODGED IN ELBOW (OLECRANON PROCESS OF ULNA). ABDOMEN UNREMARKABLE.
AFAST - NO FREE FLUID PRESENT
CHEM15/CBC/LYTES - DECLINED

DX: GUN SHOT WOUNDS – PNEUMOTHORAX, HEMORRHAGE, FRACTURED ULNA

Plan: PE DISCUSSED WITH OWNER. INFORMED OF CRITICAL STATE AND RECOMMEND CRITICAL CARE ESTIMATE TO HELP STABILIZE. OWNER VERBALLY APPROVES OF ANY COST TO SAVE MOOSE'S LIFE. OWNER IS NOTABLY INTOXICATED IN HOSPITAL AND PUNCHING WALLS, ALLEN PARK POLICE WERE CALLED TO FACILITATE SITUATION SINCE INKSTER POLICED LEFT IMMEDIATELY AFTER DROPPING OFF DOG AND REFUSED TO GIVE ACCOUNT OF WHAT HAPPENED. OWNER RETURNED TO BUILDING AND VERBALLY APPROVED CONTINUED TREATMENT AND DIAGNOSTICS. INFORMED OF GUARDED PROGNOSIS AT THIS TIME, REFUSED TO SIGN ANYTHING, INFORMED THAT HE WOULD GO AND GET CASH. INFORMED THAT WE WOULD TRY TO STABILIZE AND GETS XRAYS. GET ESTIMATE FOR CONTINUED CARE, HOSPITALIZATION, AND SURGICAL REPAIR/ETC OF CURRENT WOUNDS. OWNER APPROVES.

PERFORMED XRAYS, INFORMED OWNER THAT MOOSE HAS A PNEUMOTHORAX AND WILL NEED CHEST TAPPED TO REMOVE GAS WITHIN. THERE IS BULLET IN HIS CHEST REGION AS WELL AS RIGHT ELBOW. HIS RIGHT ELBOW IS FRACTURED BUT THIS IS NOT LIFE THREATENING, WILL NEED SURGICAL REPAIR WITH ORTHOPEDIC SPECIALIST OR AMPUTATION, CAN ADDRESS LATER ONCE HE IS STABLE. IN ADDITION HE IS ACTIVELY BLEEDING FROM HIS NECK. HE WILL NEED TO HAVE THIS SURGICALLY EXPLORED WITH LIKELY SECONDARY PROCEDURES. AT THIS TIME DO NOT FEEL THAT HE IS STABLE ENOUGH AND MAY NEED BLOOD TRANSFUSION WITH HOW MUCH BLOOD HE LOST. OWNER GIVEN ESTIMATE AND WILL CALL BROTHER. OWNER VISITED WITH MOOSE IN ROOM UPON REQUEST, INFORMED THAT HE COULD PASS AWAY AT ANY TIME. THE LONGER WE GO WITHOUT INTERVENTION THE WORSE PROGNOSIS. OWNER CONSIDERING EUTHANASIA WHILE HE VISITS. MOOSE MOVED FOR OWNER IN ROOM AND COLLAPSED AND STARTED BLEEDING AGAIN, AND ELECTS FOR HUMANE EUTHANASIA TO PREVENT FURTHER SUFFERING.
