For some reason, I can't get behind the paywall, can you please send to me. Meanwhile, if anyone still reads the newspaper, my wife is color above the fold in today's New York Times.

I saw! Congrats!

Will send.

Not engaging on any requests for comment. Sony largely left out beyond supporting Blake's cut. If that changes will let you know.

As I said these wayfair guys are terrible , look at the coordinated public assassination campaign in this story - these people should be thrown out of the Buisness .

Thank you for flagging. Fyi. This meeting was scheduled as a story mtg to review pages before shooting. She requested mtg at her apartment. Surprise to us Ryan going to be in story mtg - and mtg starts and revealed this is not about new pages.
