It's quite ironic because she has a huge hit movie headed to 300M plus! and probably will never work again or not for awhile although even Hathaway recovered. Tom thinks she's probably and bizarrely unhirable right nown

An apology to that reporter would help. Something to survivors too other than a 24 hour thing on her insta stories too.

No  
Disagree  
she is done for  
At least for awhile  
Its cooked  
She said she is retiring to Josh or something  
It will take a few years  
Eva Mendez time  
She did it to herself  
If she just let him come to the premiere or didnt make all the cast unfollow him or kick him off the movie and did what everyone ever has done in show business for time and memorial which is protect "the show" then none of the sleuthing would have happened  
The hair sell at the same time was epic level stupid  
She wouldn't listen  
She knows better  
Intl is astounding 150 and 150 and could be more
