7. Home Screen once profile has been created.

Token Launch

The screenshot shows a dark-themed website interface for a cryptocurrency platform. At the top, there are navigation links: [how it works], [advanced], [support], and a profile link for 'Eol9nz' with a [view profile] button. A prominent button at the top center says '[start a new coin]'. Below it is a featured token card for 'king of the hill' with a market cap of 37.28K and 1 reply. A search bar with the placeholder 'search for token' and a 'search' button is located below the featured card. On the left, there are tabs for 'Following' and 'Terminal', along with settings for 'Show animations' (On) and 'Include nsfw' (On). The main content area displays a grid of token cards. Each card includes a profile picture, the creator's name and time ago, market cap, number of replies, and a brief description of the token. The tokens shown include \$GHOST, Hasbulla (HASBULLA), HarrisonHSmith (HMS), BOOTARDIO (bootardio), DEPLORABLES (DEP), Bundled Dog (BOG), and a partially visible one at the bottom left.
