DECLARATION OF JONATHAN M. MARKS

I, Jonathan M. Marks, hereby declare as follows:

1. I am the Deputy Secretary for Elections and Commissions for the Department of State of the Commonwealth of Pennsylvania. I make this Affidavit in support of Defendants' Motion for Summary Judgment in the above-captioned matter.

2. My duties as Deputy Secretary for Elections and Commissions include overseeing the Bureau of Election Security and Technology, the Bureau of Campaign finance and Civic Engagement and the Bureau of Elections and

Notaries. The Bureau of Election Security and Technology is responsible for the day-to-day activities of voter registration and election administration, including administration of the Statewide Uniform Registered Electors database (“SURE”).

3. Given my role and years of experience at the Department of State, I am personally knowledgeable about the matters referenced in this Declaration and the business records of the Department of State.

4. The National Voter Registration Act (“NVRA”) requires states to conduct general programs that make a reasonable effort to remove the names of ineligible voters from the official lists of eligible voters by reason of the death of the registrant or a change in the residence of the registrant. 52 U.S.C. § 20507(a)(4)(A).

5. In Pennsylvania, voter removal programs are codified in 25 Pa. C.S.A. § 1901. Section 1901(a)(2) directs that voter registrations may be canceled only upon the request of the elector, upon the death of the elector, upon confirmation that the elector has moved outside the county, or pursuant to a voter removal program designed to identify registered electors whose address may have changed. 25 Pa. C.S. § 1901(a)(1)-(4).

6. In Pennsylvania, voter registration is entrusted by statute to the counties and only counties are authorized to investigate a registrant’s eligibility to vote and to cancel voter registrations. 25 Pa. C.S.A. § 1203(a), (h), (i).

7. In or around 2017, the Department of State discovered that a software error at the Department of Transportation may have allowed non-citizens to inadvertently register to vote when applying for or renewing a driver's license using the Motor Voter interface.

8. The Department of State worked together with the Department of Transportation to make changes to the Motor Voter process to eliminate inadvertent registration by non-citizens. Among other things, the order of the Motor Voter screens was changed to more prominently display the citizenship question, the process was reconfigured to prevent non-citizens from being offered the voter registration process and the registration screens were translated into a dozen additional languages.

9. In late 2017, the Department of State undertook an analysis of voter data to better understand the scope of the Motor Voter problem. I described this effort in my testimony before the House State Government Committee on October 25, 2017.

10. The Department's initial analysis found 1,160 records in the SURE system that indicate a registrant apparently self-reported and cancelled his or her registration because he/she was not a U.S. citizen. County election officials maintain and process cancellation requests and therefore this data needed to be

further validated by county election officials to ensure the accuracy of any conclusions drawn from the records.

11. In late 2017, the Department of State requested that the counties provide copies of cancellation requests received from persons who requested cancellation of their registration because they were not U.S. citizens. The Department of State received copies of cancellation requests from Allegheny, Philadelphia and Dauphin Counties. Copies of the records were provided to PILF in discovery in this matter.

12. Also in 2017, the Department of State worked with representatives from the Department of Transportation to conduct a high-level comparison of the SURE database against the driver license database for the purpose of identifying the number of registrants in the PennDOT database with specific tags indicating the driver's visitor, immigration or naturalization status, so-called "INS indicators."

13. An INS indicator in a driver record does not signify or indicate that the driver is not a U.S. citizen. An INS indicator can also signify that a driver is a naturalized citizen and therefore eligible to vote. Further, INS indicators are point-in-time data that can and do change over time. For example, a visa holder may become a U.S. citizen and therefore become eligible to vote at a later point in time. Accordingly, the initial high-level comparison of the SURE database and driver

license database did not identify non-citizen registrants but rather identified a much larger group of persons who may potentially be non-citizens or may have been non-citizens at some point in time.

14. Further analysis was required to determine whether any of matched records was associated with a non-citizen registrant.

15. The then-Acting Secretary of the Commonwealth, Robert Torres, engaged the Office of Chief Counsel to provide legal advice concerning Motor Voter issues, including potential voting by non-citizens.

16. The Office of Chief Counsel retained outside counsel who in turn retained an expert to assist in providing legal advice based on review of data derived from the PennDOT driver license database and the SURE system.

17. The work performed by the consulting expert was at the request of counsel, was in anticipation of litigation from any number of sources arising from the PennDOT software glitch and was for the purpose of providing legal advice. The work was not publicly disclosed. The Department has consistently invoked the attorney client privilege and the work product doctrine over the analysis and over communications between counsel and the expert concerning the analysis.

18. Based on advice of counsel and expert work product, the Department of State communicated with registrants in 2018 concerning the Motor Voter software error.

19. The Department of State sent letters to 7,702 registrants on April 27, 2018 advising that the Motor Voter system may have allowed individuals to inadvertently apply to register to vote when obtaining or renewing a driver's license. The letter also advised registrants of the qualifications necessary to register to vote in Pennsylvania, *i.e.* must be a citizen of the United States, must have been a resident of Pennsylvania and the election district for at least 30 days and must be at least 18 years old. The letter further advised recipients to contact their county election office if they did not meet the requirements or were unsure if they meet the requirements. A copy of the letter is attached as Exhibit "A."

20. The Department of State sent a second letter on June 12, 2018 to 11,198 active and inactive (*i.e.* registrants who have not voted for five years and failed to respond to written notice) registrants reiterating the qualifications necessary to register to vote and asking the recipients to affirm their eligibility to vote or cancel their voter registrations. A copy of the letter is attached as Exhibit "B."

21. Another round of letters with a similar message was sent on June 29, 2018 to those recipients who did not respond to the June 12, 2018 letter. A copy of the letter is attached as Exhibit "C."

22. On July 26, 2018, the Department of State referred to the respective counties information concerning individuals whose letters were returned as

undeliverable and individuals who did not respond to the letters. County election officials were advised to handle the registrants according to normal processes employed to confirm eligibility and/or verify addresses.

23. The actions taken by the Department and the responses are summarized in the press statement and charts attached as Exhibit "D."

24. In October 2017, I received a letter from PILF requesting four categories of records pursuant to the public disclosure provision the NVRA.

25. I responded by letter dated December 20, 2017 advising that the Department of State interpreted the public disclosure provision in the NVRA as applying only to programs for removal of registrants who have died or changed residence and that, if the NVRA were interpreted as applying to removal programs aimed at non-citizens, the Commonwealth had no such program at that time. A copy of my letter is attached as Exhibit "E."

26. Following dismissal of the action docketed at No. 18-463, PILF resent the same request for records on March 20, 2019. I sent a letter dated April 9, 2019 in response to the renewed request with a similar response. A copy is attached as Exhibit "F."

27. The first category of records sought by PILF are records relating to comparison of the SURE database with the PennDOT driver license database. This analysis and derivative lists of registrants generated as a result of this analysis

necessarily implicate confidential driver license information which the Commonwealth is prohibited from disclosing under federal Driver's Privacy Protection Act, 18 U.S.C. § 2721, and Pennsylvania state law, 75 Pa. C.S.A. § 6114(a).

28. In addition, disclosure of the names of the persons who received letters may suggest incorrectly that the recipients are non-citizens and may result in harassment or abuse directed at those individuals. It is important to reiterate that the persons who received letters were merely identified as persons whose voter registration eligibility required further review. They were not determined to be non-citizens. To the contrary, many of the persons who received letters are U.S. citizens. Nearly 2,000 of them affirmed their eligibility to vote.

29. The Department of State has provided PILF with copies of documents relating to communications with registrants that do not include or derive from protected driver license information, including copies of the letters, communications with county election officials, press communications and data showing the total number of letters sent and responses received.

30. Other than protected driver license information from PennDOT, the Department of State received no documents within the relevant period from the Department of Homeland Security or any other official government source identifying potential non-citizens on the voting rolls.

31. The second category of records sought by PILF are communications requesting cancellation of voter registration for any reason related to non-U.S. citizenship and any related list maintenance actions.

32. In Pennsylvania, voter registration is entrusted by statute to the counties and only counties are authorized to investigate a registrant's eligibility and cancel voter registrations. 25 Pa. C.S.A. § 1203(a), (h), (i). Accordingly, requests for voter cancellations are properly addressed to and processed by the counties.

33. In late 2017, after the Motor Voter programming error was discovered, the Department of State requested that county election officials provide records in their possession relating to registrants who requested that their voter registrations be canceled because they were not U.S. citizens. The Department of State received records from Allegheny, Dauphin and Philadelphia Counties. Although those documents were not sent to or maintained by the Department—they were sent to and maintained by the counties—those records were produced to PILF during discovery in this case.

34. While not directly responsive to the second request, the Department of State also produced in discovery a redacted list of 1,160 persons who requested to be removed from the voting roll because they claimed to be non-citizens. This list

was generated as part of the analysis referenced in my testimony before the State House Government Committee on October 25, 2017.

35. The Commonwealth does not have a list maintenance program to identify and remove non-citizens and therefore there are no records relating to such programs.

36. The third category of records sought by PILF are communications with jury selection officials relating to individuals who claimed to be non-U.S. citizens when attempting to avoid serving on jury duty and maintenance actions taken as a result.

37. As I explained in my deposition, the Department of State occasionally receives letters from jury officials identifying persons who were summoned for jury duty and who asked to be excused because they were not citizens.

38. When the Department receives such letters, they are forwarded to the respective county to take appropriate action. Again, counties, not the Department, are entrusted with responsibility for investigating voter eligibility.

39. The Department of State advised PILF as much in 2016 in a written response to PILF's similar request for communications with jury selection officials. The April 12, 2016 letter states in pertinent part: "[T]he Department receives non-citizen information on occasion from the U.S. district courts in

Pennsylvania. The Department forwards the information to the appropriate county voter registration commission.”

40. A search by Department of State personnel did not uncover any such letters from October 2015 (two years prior to PILF’s original NBRA request) to March 2019 (the date of PILF’s renewed request). There are no records to produce in response to the third category.

41. PILF’s final request for records relates to communications with prosecutors and law enforcement agencies concerning voting by non-citizens.

42. The Department of State has not communicated with federal or state prosecutors concerning any individual who was identified as a non-citizen or who sought to cancel his or her registration based on non-citizenship. Further, information received from county officials and other sources suggests that the software error allowed persons to register to vote inadvertently and without any intent to violate the law.

43. The Department has no records to produce in response to the fourth category.

44. The Commonwealth has no systematic program to identify and remove non-citizens from the voting rolls and therefore no list maintenance records to produce in response to PILF’s requests.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Exhibit D

Statement - Voter Registration & Election Integrity July 2018

When the Department of State became aware in 2017 that a decades-old issue with the PennDOT motor-voter system had allowed ineligible individuals to inadvertently register to vote, our immediate priority was to fix the problem. That project was completed in December 2017.

The Department also undertook the following steps to investigate and address the concern that some ineligible individuals registered to vote:

- The Department retained an expert to conduct a full analysis of registration data by comparing the voter rolls with other available state databases. The initial analysis yielded a responsible list of individuals for whom voter registration status required further confirmation.
- Prior to the May 2018 primary, the department mailed letters to 7,702 of those registrants whose registration status was active. Because the data analysis was ongoing, the immediate goal was to remind the individuals of voter eligibility requirements before the primary.
- Based on further expert analysis, the Department mailed letters to 11,198 registrants on June 12, including those with active and inactive status, asking the recipients to affirm their eligibility to vote or to submit a request to cancel their registration.
- After the responsive affirmations and requests for cancellation were taken into account, on June 29 another round of letters with a similar message was mailed to those who had not responded.
- A robocall reiterating the need to respond to the mailing was made to registrants for whom there was a telephone number in their voter registration record.
- Additional affirmations and requests to cancel were processed.
- On July 26, the Department sent the appropriate counties the information on the individuals whose letters were returned as undeliverable and the individuals who did not respond to our repeated communication efforts. County election offices have been advised to handle the registrants according to their normal processes employed to verify addresses and confirm eligibility.

The Department's goal in this process was to protect the integrity of elections in Pennsylvania. The issue we are remedying spans several decades and multiple administrations. The Department takes seriously its duty to make sure that only eligible voters can cast ballots, and we believe that this extensive process was the best path to restoring full confidence in our elections.

Upholding the integrity of Pennsylvania elections is a core mission of the Department of State and one we work toward every day. When we learned that ineligible residents may have registered to vote through a longstanding issue in the motor voter system, we knew that it was imperative to address the problem. Equally imperative was the protection of every eligible elector's right to vote in the Commonwealth of Pennsylvania. While it is true that even one ineligible registrant is one too many, it is also true that the disenfranchisement of one eligible voter is one too many. That is why we resisted

efforts to bring about a careless and wholesale removal of all registrants initially identified as potentially ineligible. From the experiences of other states, we knew that many voters whose registrations required confirmation would in fact turn out to be eligible voters. That has proven true in Pennsylvania, as in other states.

At this point, we are turning over information to the counties to confirm eligibility of the remaining registrants because the Department does not have the authority to remove voters from the rolls. With expert assistance, we undertook rigorous data analysis and then made several rounds of outreach to potentially ineligible registrants as a way to prudently refine the initial analysis and lessen the workload for each county election office.

We remain confident that this careful, deliberate approach was the most responsible way to remedy a decades-old problem while ensuring that no eligible voter is disenfranchised.

Universe Review

1. Of the 11,198 initial records:

- a. 2,500 individuals were removed
 - i. 286 were removed because they were already 'canceled'
 - ii. 2,214 were removed due to responses received from either mailing
 - 1. 1,915 affirmed their registration
 - 2. 215 canceled on form sent
 - 3. 84 need further review by DOS

2. That leaves 8,698 records, broken down as follows:

- a. There were two categories to consider with the remaining individuals
 - i. No Response
 - 1. 5,251 active records (possible further confirmation active by county)
 - 2. 1,479 inactive records (already on path to cancellation)
 - ii. Undeliverable addresses
 - 1. 895 active records (will get address verification notice)
 - 2. 1,073 inactive records (already on path to cancellation)

3. What was the response rate of the mailing?

- a. 2,214 responses were received from recipients
 - i. Approximately 20% response rate

4. When did county officials receive the information?

- a. Files were sent to the appropriate counties on July 26th and loaded into their secure FTP sites.
- b. The counties also received an email from the Department on July 26th

Re: NVRA Request

Dear Mr. Johnson:

Thank you for your letter dated December 4, 2017, in which you request records from the Pennsylvania Department of State (Department) pursuant to the National Voter Registration Act of 1993 (NVRA). While we can appreciate your interest, the Department does not agree that the NVRA entitles you to access the records you seek. At its core, Section 20507 of the NVRA requires reasonable efforts to remove voters ineligible by reason of death or a change of residence. 52 U.S.C. § 20507(a)(4). There is nothing in that section that specifically relates to the removal of non-citizens. Therefore, it is not reasonable to read the public disclosure provision in Section 20507(i) as relating to anything but the mandatory removal programs set forth in Section 20507(a)(4).

Further, even assuming *arguendo* that the NVRA would apply to a systematic removal program regarding non-citizens, the Department does not currently have such a program in place. As such, no responsive documents exist.

Maintaining the accuracy and integrity of Pennsylvania's voter registration database is extremely important to the Department and we are committed to using reliable tools that advance the goals of increased accuracy and integrity. The solution we recently implemented in partnership with PennDOT to prevent non-citizens from entering the Motor Voter workflow advances these goals, and does so without the risk of disenfranchisement. As we stated at the hearings before the Pennsylvania General

Assembly, the Department is actively reviewing this matter but we must proceed in a responsible manner to ensure that no eligible voters are disenfranchised in the process.

Thank you again for your letter.

Sincerely,

Re: NVRA Request

Dear Mr. Johnson:

This is in response to your letter dated March 1, 2019, which was delivered on March 20, 2019, in which you request records from the Pennsylvania Department of State (Department) pursuant to the National Voter Registration Act of 1993 (NVRA). While we appreciate your interest, the Department does not agree that the NVRA entitles you to access the records you described. At its core, Section 20507 of the NVRA requires reasonable efforts to remove voters ineligible by reason of death or a change of residence. 52 U.S.C. § 20507(a)(4). There is nothing in that section that relates to the removal of non-citizens. Therefore, it is not reasonable to read the public disclosure provision in Section 20507(i) as relating to anything but the mandatory removal programs set forth in Section 20507(a)(4).

Further, even assuming *arguendo* that the NVRA would apply to a systematic removal program regarding non-citizens, the Department does not currently have such a program in place. List maintenance in Pennsylvania is codified in 25 Pa. C.S.A. § 1901 which notably does not include any program or activity for systematic removal of non-citizens.

The Department's privileged investigation into the potential registration of non-citizens through the now-resolved issue in the PennDOT motor-voter system is not a voter removal program and is not within the scope of the public records inspection provision in the NVRA.

Sincerely,

A handwritten signature in black ink, appearing to read "Jonathan Marks".

Commissions
