<sup>9</sup> Represents an estimate of each cell's coded occupancy limit, as outlined in technical design standards when constructed, multiplied by the total number of cells for all ports of entry within each field office. This number does not account for the unique circumstances that may limit the occupancy of a given cell (e.g., high risk, nursing/pregnant, transgender, unaccompanied minor, etc.) nor does it reflect operational limitations that affect a port's capacity to detain. CBP's capacity to detain individuals in its short-term facilities depends on many factors, including: demographics of the individual in custody; medical or other needs of individuals in custody; ability of ICE ERO (or, if an unaccompanied child, the U.S. Department of Health and Human Services) to transfer individuals out of CBP custody; and OFO's available resources to safely process and hold individuals.

<sup>10</sup> Represents the average number of travelers in custody on a daily basis averaged over the number of days in the calendar month, at all Southwest Border Field Office locations. Travelers include inadmissible individuals, lawful permanent residents, asylees, refugees, and United States Citizens who are being detained to verify wants, warrants, criminal, administrative or other judicial process.

<sup>11</sup> U.S. Border Patrol facilities, such as stations and central processing centers, provide short-term holding capacity for the processing and transfer of individuals encountered by agents. Maximum facility capacity along the southwest border is approximately 5,000, which assumes a homogenous population and full operating status at all facilities. Actual capacity fluctuates constantly based on characteristics of in-custody population, to include demographics, gender, criminality, etc. The average percentage of subjects in custody on a daily basis is 203%, which is averaged over the number of days in the calendar month and includes all Southwest Border Sector locations.

(4) The total monthly number of “applicants for admission”<sup>12</sup> under Section 1225;

<sup>12</sup> An applicant for admission is defined as “[a]n alien present in the United States who has not been admitted or who arrives in the United States (whether or not at a designated port of arrival and including an alien who is brought to the United States after having been interdicted in international or United States waters).” 8 U.S.C. § 1225(a)(1). Thus, an applicant for admission may include noncitizens that have never been encountered by CBP. At this time, CBP does not have a mechanism to track all applicants for admission in the United States that are not encountered by CBP. CBP has included the same data as the Title 8 encounter data provided in response to 1 above.

(6) The total monthly number of “applicants for admission” under Section 1225 released into the United States, paroled or otherwise.”<sup>13</sup>

<sup>13</sup> All numbers in reporting requirement 6 are “based on encounter date,” as defined above.

<sup>14</sup> Individuals who are screened by CBP, and after criminal and immigration records checks are conducted to determine if the subject is a threat to national security or public safety, are then released and instructed to report to U.S. Immigration and Customs Enforcement (ICE) for continued processing.
