My Commission Expires Nov 29, 2024

I, Shaun Overton, 40 years of age, 1917 Sage Trail. in the municipality of Hurst, State of Texas, USA with the Unique Identification Document number: [REDACTED], hereby **DECLARE:** I) That between my person and the company that operates under the name of "ATHENA HOLDINGS EL SALVADOR, VARIABLE CAPITAL LIMITED COMPANY", abbreviated as AHES, S.A. DE C.V., there has been an individual work relationship since 09/22/2021, and by virtue of this, I have exercised and will continue to exercise my position as CTO. As a result of this, I have had contact with, handled and received commercial information of a restricted and confidential nature, regarding marketing, technical, financial, accounting and legal matters, among others, from AHES, S.A. DE C.V., as well as from the people who are related to it. II) That due to the foregoing, I hereby undertake to maintain total confidentiality in relation to the information that I have received, handled and managed or that in any way has come into my possession throughout the aforementioned employment relationship, including but not limited to the following: a) Financial, accounting, industrial, commercial, customer, marketing, strategic, legal, technical, and other information generated or not generated by the company for the exclusive use of the business, whether in the verbal, digital or physical form; b) Accounts and passwords for access to computerized applications, electronic mail, banking services, databases, operating systems, personal computers, communication equipment, and other electronic devices and services that allow access to tangible or intangible resources of the company; c) Any other document or information that may in any way be part of the intangible assets of AHES, S.A. DE C.V. that is and will be received by me from any of the members, representatives, employees, legal representatives, lawyers and/or executives and even clients of the aforementioned company, under the protection of this instrument, including preliminary documents, notes, reports, studies, correspondence, facsimiles and any other information transmitted by any means; these will be considered by me to be confidential. III) That as a consequence of the employment relationship that I have maintained and continue to maintain with AHES, S.A. DE C.V., I expressly consider and acknowledge that all related information is and will be the exclusive property of AHES, S.A. DE C.V., and therefore all the information, including but not limited to any commercial and confidential information which may have been disclosed to me by virtue of the aforementioned employment relationship and of all that is relevant to AHES, S.A. DE C.V. or to its subsidiaries and other entities related to it, will not be used by me for any reason or for any purpose. Therefore I will take all necessary measures to maintain the confidentiality of the information and prevent its loss or disclosure to third parties. Likewise, I declare that I understand that all the information received is characterized as being a "business secret", due to its having commercial value and to having been reserved by AHES, S.A. DE C.V. for exclusive use as restricted information. Therefore, it is understood that ATHENA HOLDINGS EL SALVADOR, SOCIEDAD ANÓNIMA DE CAPITAL VARIABLE will have the right to demand from me verbally or in writing at any time that the restricted, confidential or internal information of the company that is in my possession be destroyed or returned, regardless of whether such information was provided before this date. IV) Whereas, I expressly assume the responsibility for any loss, theft, destruction and/or misuse of any information owned by AHES, S.A. DE C.V. that is contained within personal computers that are not owned by AHES, S.A. DE C.V., as well as all information that has been extracted or will be extracted in the future by me through magnetic storage devices, compact discs, USB keys, forwarding of said information to personal email, disclosures on social networks, digital platforms, other devices such as cell phones or tablets, or through any other technology. I hereby unequivocally undertake not to take photographs of equipment, materials, supplies, structures, spaces, real estate, or any other distinctive, commercial sign or logos that were owned or merely in the possession of, but ultimately linked to AHES, S.A. DE C.V., nor to disclose in any physical or digital medium any photograph or content related to the operation and economic activity of AHES, S.A. DE C.V.. I also agree not to remove any work tools or personal property owned or held by AHES, S.A. DE C.V. that are part of the development, management and operation of the economic activity of said company, regardless of the object and value in question. Therefore, I hereby assume the risk of being liable for damages caused to ATHENA HOLDINGS EL SALVADOR, SOCIEDAD ANÓNIMA DE CAPITAL VARIABLE, SA, DE CV, and/or its clients, derived from the breach of any of the obligations and declarations contained in this instrument. V) That the statements made through this document and the obligation to maintain confidentiality implicit in all statements are in force as of this date and will continue to be in force, even if said employment relationship is terminated, without a time limit and regardless of the reason that may cause said termination of the relationship. Finally, I hereby manifest that in the event of breach of the obligations contained in this declaration, I will be civilly and criminally liable before ATHENA HOLDINGS EL SALVADOR, SOCIEDAD ANÓNIMA DE CAPITAL VARIABLE or any of its clients who may be affected as a result of my breach; in which case ATHENA HOLDINGS EL SALVADOR, SOCIEDAD ANÓNIMA DE CAPITAL VARIABLE may pursue against me all the legal actions to which said breach may give rise, particularly the compensation for the damages caused, being financially liable up to the amount of thirty thousand dollars of the United States of America or legal tender. VI) That for the legal effects of the interpretation of this declaration, I expressly submit to the legal system of the Republic of El Salvador and its judicial courts. In witness whereof I sign this document in the city of San Salvador, State of San Salvador, on the 22nd day of the month of September of the year two thousand and twentyone.

Page 10 Page 12 1 physically deposits the cash into the ATM. The 1 wallet; correct? ATM then converts that to Bitcoin. 2 I'm sorry. I don't really understand Α. 3 The government signs terms with 3 the question. Athena to remove the commissions associated with 4 Okay. With regard to the wallet 5 that transaction. There may be like a tiny, itself, I think I understood you to say that it 5 tiny commission; but it's functionally close to 6 6 could be use like a debit card, essentially? zero. It's a fraction of a percent. 7 7 A. Basically, yes. 8 And then that money is converted to 8 Q. Okay. And those funds can be placed q Bitcoin, sent to the recipient who has a Chivo into that wallet from anywhere, any source, as 9 10 Wallet. And that Chivo Wallet has the option 10 far as Bitcoins go; correct? 11 but not the requirement that when the Bitcoin 11 It could come from --- yeah, you don't 12 deposit is received, you can immediately convert have to uses an ATM. You could deposit by 12 13 it back into US dollars. 13 Bitcoin. 14 The -- one of the primary concerns 14 Okay. And as far as where the Chivo 15 with people using Bitcoin is its volatility 15 Wallet's concerned, was that product -- I guess 16 relative to the US dollar. So by the person 16 we'll call the Chivo Wallet a product -- was 17 sending the money in Bitcoin and knowing that 17 that product going to be owned by the government Chivo Wallet will automatically convert it, it 18 of El Salvador? 18 19 keeps their market risk extremely limited to 19 A. 20 approximately a few minutes of price action, 20 Okay. 2 has two potential uses. They can either go to 3 another ATM and withdraw that in cash, which is overwhelmingly what people do. Or they can keep the money in the Chivo Wallet ecosystem and 6 spend it functionally like the credit card, 7 although it -- I guess a debit card would be a better analogy; that they can go make purchases at major stores across El Salvador with money in 10 their Chivo Wallet.

Okay. All right. And so the Chivo Wallet -- I mean, you told me about the people have the ability to transmit money from another country, like the United States, and have the Bitcoins end up in the wallet. But the wallet can be used -- I mean, it's just, it's just used as a Bitcoin wallet; correct? That's what the Chivo Wallet - it wasn't restricted to receiving funds from, you know, the United States, for example; correct?

It's not restricted. Α.

Okay. So the folks in El Salvador, they can go to the ATM there in El Salvador and buy Bitcoins -- I mean, however, whatever they would typically do with regard to a Bitcoin

Page 18 1 experienced a number of incredibly difficult circumstances where the -- the program was 3 functionally unusable. And so we were brought in to right the ship and fix all the problems. 5 And so the government of El Salvador 6 had a software program, and you're saying that ROI came in to fix the bugs in this software; is 7 8 that correct? 9 Ά. Correct. 10 Okay. The software -- what did the Q. 10 11 software do that was not working properly for $\ensuremath{\mathsf{El}}$ 11 12 Salvador? 12 13 Α. It's a very long list. 13 14 Well, give me generally what was it 0. 14 15 supposed to do, this software. 15 16 It was what I described to you 16 17 earlier about serving the remittance market. 17 18 Okay. But when you became involved 18 19 in the project, was it already called the Chivo 19 20 Wallet? 20 21 A. Yes, it was. 21 22 Okay. All right. So there was a 22 software out there that belong to the government .23. 23 24 of El Salvador; and part of it, at least, 24 25 included this Bitcoin wallet called the Chivo 25

rollout.

So the government of El Salvador made to eliminate the KYC, the KYC vendor from the process so that the Chivo Wallet registrations could continue. They wanted to hit their 50,000-user initial launch point. But because they turned off KYC, there was literally no supervision whatsoever. Anybody on the platform could sign up and get \$30.

So we experienced -- I know that Miguel Sabal, who was the direct advisor to President Bukele and who I worked with nearly every day, was coming in my office telling me about users, when they would take the selfie for their personal identification, he was saying people were taking pictures of the wall, of potted plants.

So we had this database where people very quickly learned that if they could show an El Salvador IP address, that they could sign up for Chivo Wallet, get \$30 completely for free as a gift for registering, and then withdraw that money immediately.

And in the final assessment -- we don't -- we never pinned down the exact amount

- That was the entirety of it.
- Okay. And so you're telling me that you are hired to take -- to work out the kinks in the Chivo Wallet project that already existed; correct?
 - Α.
- Do you recall anything about the government of El Salvador using the Chivo Wallet to give money directly to its citizens?
 - A. Absolutely.
- How -- I mean, tell me what you 0. remember about that.
- A. It was rife with fraud. So when the program launched on September 7th, there was a vendor selected that I don't recall the name of. And I know that QA Consultants, another vendor, had warned the government that this software -that this vendor was extremely likely to fail under load.

And within the first 150 sign-ups on the platform, the, the vendor for KYC compliance crashed. And government of El Salvador had, especially President Bukele, had staked pretty much his entire career on the successful

- 1 of fraud, but we estimated that it was between 10 to 20 percent of all of the users registered 2 3 were fraudulent. And the vast majority of that money had left the Chivo Wallet ecosystem. 4
 - So throughout my time in the project, fighting fraud was overwhelmingly the government's priority and consumed a lot of our time and resources.
 - Okay. So based on what you just told me, it was the -- the Chivo Wallet project was designed to be utilized by citizens of El Salvador; correct?
 - It was exclusively limited -- it was supposed to be limited to only citizens of El Salvador,
 - Okay. So tell me how you became involved in this Chivo Wallet project in El Salvador.
 - Α. I received a call from Brian Bernknopf. He is a colleague and is managing director at QA Consultants. I was flying to visit my team in the Dominican Republic. And while laid over in Miami, I received a call from him, which I didn't hear. He send me a text message which said: Give me a call. I've got

4 Α. September -- I believe it is September 10th, is the date that I signed the 5 6 contract.

7 All right. So September 10th, '21, you signed a contract with the government of El Salvador; correct?

I should correct that. So I -- the government signed a contract with QA Consultants. And then QA Consultants subcontracted me to do the work because we

14 didn't want to have to lose time with legal 15 contracts, negotiations, that kind of thing.

16 So I was a subcontractor to 17 QA Consultants, who was the primary to the 18 government of El Salvador.

Okay. And so approximately when did you sign your contract with QA Consultants?

September 10th, I believe.

Okay. All right. And what was -the gentleman -- I wrote his name down here a second ago. What was the first name of the guy that called you? because we're just going to go

Q. Okav.

Α. Literally zero documentation.

Q. All right. Let me interrupt you for just a second.

The programming that had been done that you were coming in to assist with, who performed that programming; do you know?

Okay. All right. So your testimony is that prior to September '21, there was programming in existence for this Chivo project in El Salvador; correct?

No, no, no. It had nothing to do - 2 making any changes to the source code without 2 3 with physical, real-world logistics.  - All right. So what happens next?
- So we had to decide where in the code we're going to work. The first day was consumed with really, really basic setup: configuring Docker, getting the project fully Dockerized, getting the process of -- like literally writing documentation so as we onboarded other developers, we wouldn't have the same time hurdle. Page 50 1 you go to this office in San Salvador, what was 2 the signage that you saw? Α. "Athena Bitcoin." And as I understand it, the signage 5 that you saw said "Athena Bitcoin"; is that 6 correct? 7 Correct. 8 At that office did you see anything 0. 9 that said "Athena Bitcoin, Inc."? 10 Α. No. 11 Q. All right. So this meeting that 12 you're having, was it everybody in person or was 13 it part in person, part remotely? 14 A. Entirely in person. 15 Q. Okay. All right. So what's the 16 result of that meeting? 17 Eric offered -- Eric said: I know A. 18 about your offer from the government of El Salvador. And if you do that, you'll, you'll 19 19 20 do really well for six months. But then you're 20 21 going to to ask yourself what next. You don't 21 22 have the infrastructure to grow the business and 22 -23 expand and capitalize on the opportunity 23 24 afterwards. Or you can, you can join our team. 25 We'd like you to be the CTO. And we'll take you 25 Page 51 around the world. We will give you -- yeah

Page 52 Okay. So the discussion that you just told me about between you and Eric, at any point does Eric say: Hey, I want you to come -you know, this is on behalf of Athena Bitcoin, Inc. or Athena Bitcoin Global, or is it just Athena in general?

- Ά. Athena in general.
- Q. Okay. All right. So there's a discussion -- you're saying that Eric and you discussed you coming to work with Athena. And you're saying, Hey, I need to think about it.

Correct?

- Α. Correct.
- All right. So what happens next? Q.
- So that meeting occurred on a, on a Tuesday morning, so about 24 hours after my meeting with the government.

And then that evening Eric and I met by the pool of the Hotel Barcelo, and he told me the entire background about how Athena came to be involved in the project.

Okay. I'm going to -- if I'm Q. fast-forwarding, tell me here. But at some point there becomes discussions relating to the service that's the subject of this lawsuit;

Page 53

we'll give you the opportunity to do what you're doing already but not have to do the chief everything officer role; you can just focus on the CTO role.

And so he made it a binary choice. I either had to do the government of El Salvador or I had to do Athena Bitcoin -- and I understood it to be Inc.

And then I said: I need time to think about it.

Okay. I'm going to interrupt you right there. All right. In -- do you recall -all right.

15 Is this discussion occurring or 16 October 4th?

- Α.
- 18 Okay. In your discovery responses 19 you say [as read]: Overton and Eric Gravengaard 20 discussed in El Salvador on October 4th, 2021,
- 21 the software development services at issue that 22
- Accruvia was performing and the cost for said 23 services.

Is that a different meeting? Completely different.

correct?

- A. Correct.
- When did those -- you provide -- when Q. did, when did it become discussed that ROI was going to provide these services that brings us here today?
 - Around September 20th.
- Okay. All right. So tell me how it is that there were discussions relating to ROI providing the services that are the subject of the lawsuit.
- There was a term sheet signed between ROI Developers and Athena Bitcoin, Inc. that was essentially a letter of intent that had a component of outlining a potential employment agreement between myself and Athena Bitcoin, Inc. And there was a separate component with Athena Bitcoin, Inc. acquiring ROI Developers and its staff.

That evening, after the discussion by the pool, Eric -- I sent Eric an email outlining my exact understanding of what we were agreeing to. And I also outlined the fact that I was giving up a four and a half million dollar opportunity, that that was my expected profit

24	Like at no point was there any doubt whatsoever	24	Q. All right. All right. So you and
25	about what the Accruvia programmers would be	25	Eric are talking; he's talking about a lot of

6	A. Initially, the Chivo Wallet project.	6	Q. All right. And then I'm going to ask
7	And then Eric heavily implied to me that "going	7	Kelly to show you the document that's been

Page 58 1 A. Correct. 0. Okay. So then -- so tell me what happens next in this progression related to you providing services to Athena that brings us here 5 today. 6 The -- so, like, what this term sheet 7 accomplished for Athena was that it severed the 8 government's option to remove it from the project. And so the only way for Eric to 10 protect that source of business was to 11 internalize the Accruvia development team within 12 its, within its company. 13 And the very first day as -- the 14 very first day the two-week contract with OA Consultants expired, all of the developers that 15 were working on the project no longer serviced 17 QA Consultants; they serviced Athena Bitcoin, 18 19 Q. Wow. Are there any documents that 20 show that? 21 Α. It would be in the records of Athena 22 for the Microsoft Teams that I onboarded -everybody, showing that everybody at Athena --24 or at Accruvia, at ROI Developers was onboarded in Athena Bitcoin, Inc.'s Microsoft software, 25

Q. Until October 4th. So prior to October 4th there was never any discussion about how much you were going to be paid or how you were going to be paid or who was going to pay you; correct?

- A. Correct.
- Q. So what -- did any of that change on October 4th?
- A. I mean, we ironed out the details. But the same fundamental setup remained in place.
- Q. When you say "we ironed out the details," who's "we"?
 - A. Myself and Eric Gravengaard.
- Q. And where did this conversation take lo place?
 - A. In the stairwell on -- in the office building of Athena's offices in San Salvador, El Salvador.
 - Q. Okay. So tell me what you recall about the discussion.
- A. I said: Eric, I need to pay my team, and I need to know what you think an appropriate markup is.

The reason that I said that is I knew

- Q. All right. This Microsoft software, Solutions, what is that? What's that software utilized for?
 - A. Email and chat.
- Q. Okay. So you're saying the fact that accounts were set up for email and chat on a Microsoft software that was utilized by Athena Bitcoin, Inc. is, in your mind, something showing that Athena that ROI was providing its services to Athena Bitcoin, Inc.; is that correct?
 - A. Yes, it is.
- Q. All right. So approximately when was this when was the accounts on the Microsoft software, when were these set up?
- A. Would have been September 22nd or September 23rd.
- Q. So as of September 22nd or September 23rd, are you saying that the -whatever Athena entity was going to be paying the developers, your developers directly?
- A. No. We didn't discuss the specific terms of how I would bill or the way payments would flow. October 4th,

Page 61

how cash-poor Athena -- as all of the Athena
entities were. I didn't know the full extent of
their cash problems until probably a week later.

But I knew that I was taking a financial risk by
paying my team and waiting to get paid from
Athena Bitcoin, Inc.

And so I felt like probably a 10 or

And so I felt like probably a 10 or 20 percent markup would be appropriate for a short-term, short-term loan. And -- but I asked Eric to propose the terms. And he said: I don't know. A percent, a percent and a half?

I wasn't super-happy with it. But — and it — under no circumstance would I ever work on a percent margin. But because of the pending acquisition and a four and a half million dollar payday on the line, I wasn't going to throw a fit over making a few extra thousand dollars.

- Q. So you're saying on October 4th you and Eric discussed that Athena was going to pay ROI based on a markup of the -- what it paid its programmers; is that correct?
- A. Yes, it is. And Bailey Jarrell's included in there. She worked in marketing. But yes.

Page 62 1 Q. On October 4, 2021, when you were having this discussion with Eric, was there any discussion -- scratch that -- did Eric say specifically what entity you would be 5 contracting with? 6 Α. No. 7 Okay. And as of October 4th, 2021, you weren't aware of which Athena entity Eric 9 was acting on behalf of; correct? 10 Α. We never explicitly outlined it; 11 correct. 12 Q. So then, as of October 4th, you 13 believed you were going to get paid a markup of what ROI was paying its developers. But as far 14 15 as who was contractually obligated to pay you, 16 you didn't know yet; correct? 17 I believed it was Athena Bitcoin, 1.8 Inc., from the term sheet where Eric's signature 19 20 So you believed that you were 21 contracting with the same party that signed the 22 term sheet that we looked at a moment ago; 23 correct? 24 A. With Athena Bitcoin, Inc.; yes. 25 That's not my question. My question Q. 25 Page 63

Page 64 The reason I believe that's wrong is that the one that paid my bill, the very first bill, was Athena Bitcoin, Inc.

Okay. I'm not -- what I'm asking you right now is: As of October 4th, okay, as of October 4th, 2021, you hadn't received any payment from anybody on -- from Athena; correct?

Α. Correct.

Okay. As of October 4th, 2021, did ο. you believe your agreement was with the same person or entity that you entered into the term sheet with?

A.

0. And that's who you believe you were going to provide services to, and that's what you believed was going to pay you; correct?

A. I said earlier that I wasn't focused on it because, to me, all I cared about was the cash outlay. So I had put no thought into which entity was paying me.

Okay. So then, as of October -well, I guess back to my question: As of October 4th, you had signed a term sheet; correct?

Yes, that's true.

is: Did you believe that in the stairwell, your conversation between you and Eric, that you were contracting with the same entity that you signed the term sheet with?

I don't think I had a strong opinion on it at the time. I was more focused on just getting paid.

All right. So then as of October Q. 4th, 2021 -- which is the day you say you made the deal to provide the services -- you didn't know who you were contracting with; correct?

I didn't -- I disagree with how you phrased the question.

What is it is about the question you Q. disagree with?

Α. We formed the agreement on September 22nd.

Q. And is that when you signed the term sheet?

Α. Yes, it is.

Okay. Well, if that is, in fact, correct, then the -- isn't it true that the party that you were contracting with to provide these services that we've been talking about was the same party that signed the term sheet?

Page 65 Q. Okay. And you told me a moment ago that that was the same entity you were contracting with to provide the services for the Chivo project. Do you remember telling me that?

I do.

Q. Okay. So then, at least as of October 4th, isn't it true that you believed the entity that you were providing services to and that you were going to get paid by was the same entity that you entered into the term sheet with?

A. No. The blunt truth is that I did not have any concern whatsoever. I had put no thought into which entity was going to pay me. My only motivation and concern was getting paid in a timely manner.

Q. Okay. So then, if the folks at Athena Bitcoin Global, Inc. say that as of October 4th, 2021, it was the belief of Athena Bitcoin Global that it entered into this agreement with ROI where ROI was going to provide the services for the Chivo project, you wouldn't be able to contradict that testimony, would you?

A. I don't -- I, I really don't understand -- like -- as I keep saying, we didn't have the specific terms of what the billing rate was going to be.

But for me, that was implicit, when you're asking me to provide a service and you know I charge for it. Like — so the payment terms were on October 4th. The rest of it is them telling us what they want us to work on.

Like, I don't understand what else you're looking for.

Q. Well, you're saying that prior to October 4th, folks at Athena were directing programmers on work they desired to be done; correct?

- A. Yes, absolutely.
- Q. Okay. Well, that was going on while you were getting paid by QU Consultants also; correct?

A. As I've testified, we discussed the actual payment terms on October 4th, and prior to that we had not discussed any payment terms.

Q. I'm not asking how much you're going to get paid. My question is: Prior to October 4th, 2021, did you ever discuss with anybody at Athena that you — that ROI was going to provide services to Athena and Athena was going to pay for those services?

A. No, no payment terms were set prior to October 4th.

Q. All right. Was there ever a discussion where anybody at Athena explicitly told you that Athena was going to pay ROI for services, prior to October 4th, 2021?

A. I don't recall anything specific about the -- I don't recall having a specific discussion because, as I keep saying, they're directing me; so that to me was understood.

Q. So what you're saying — your testimony is that prior to October 4th, 2021, you never had a discussion with anybody at Athena, at any of the Athena entities, that ROI was going to get paid for services; is that right?

A. That seems preposterous to me. I don't recall a specific discussion. But in no way would I ever just start programming for somebody without the expectation of getting paid.

Q. Well, as we sit here, can you tell me about any conversations you recall with anybody at Athena, prior to October 4th, 2021, related to ROI being paid for services by an Athena

I think it's in the SEC S1 disclosure from earlier this year that Athena Bitcoin, Inc. 6 is the operating entity within the United 7 Я Q. Well, the conversation you had with 9 the individual in El Salvador related to ATMs at 10 their consulates; correct? 11 Α. Yes, that's correct. 12 Q. And that was all over the country; 13 correct? 14 A. Correct. 15 Q. Okay. But no one from Athena -- any 16 of the Athena entities has told you that the ATMs in the consulates are their property, have 18 they? 19 Α. Eric did. 20 Q. Who? Say it again. 21 Eric Gravengaard did. 22 Eric said that the ATMs in the ο. 23 consulates were Athena property? 24 A. Correct. 25 Q. Did you ever have any conversations

You use an external platform to send those messages for you.

And in the same way, when we interact with the ATMs, we have to talk directly to the ATMS. Otherwise, there's no way you're ever going to, like, know where this money came from.

And when we deployed the code, we had had a checklist of all the different groups of servers that needed to get copies of the software. Primarily, those servers were Chivo Wallet. But the ATM deployment was a specific deployment that we would do every single night. So it had to talk to the ATMs; otherwise, there's no point.

- Q. Well, it talked to them. It had to be compatible; correct?
- A. No. It had to talk to them directly. Like, we had to know if the ATMs were working or not because people are trying to use Athena ATMs so that they don't have to pay the commissions. Like, we have to know if an ATM's not working.
- Q. Okay. But your testimony is that the only ATMs that could talk to the Chivo project wallets were ATMs owned by Athena?
 - A. My testimony is that you could use

A. Not specifically about the State of Texas, but ATMs came up all the time.

Q. Okay. But the -- to make sure I understand -- but the software that you were working on related to the Chivo Wallet, none of that software was directly placed on the ATMs; correct --

A. Incorrect.

Q. What's not correct about it?

A. It's an API. So Athena — Chivo Wallet is not really — it's better thought of as a collection of external services that are all glued together; and when glued together. They form Chivo Wallet. So you have all of these supporting roles that don't make sense to program yourself.

For example, when you log in, you have to do two-factor authentication; you have to use a cellphone. It doesn't any make sense to program your own way of sending SMS messages.

the ATMs owned by Athena to skip the

commissions, which is the entire point of building Chivo Wallet.

Yes, you can use another Bitcoin ATM. But you would pay a 10 to 20 percent commission, which is a very dumb economic decision. You should use the free one.

Q. All right. But if you don't live around an ATM that happens to give the -- to belong to an Athena entity, you can use another ATM; correct?

A. Yes. You'll pay a higher commission. But, yes, you can use any Bitcoin -- not the ATM. Anything Bitcoin will talk to it.

Q. All right. And when you're talking about all of this deploying the software, is this the same thing you were doing when you first began the work for QA Consultants?

A. No. We never deployed software as part of QA Consultants.

Page 106 this for certain; but I'm pretty sure that if you sent money into a Chivo Wallet on an Athena-operated ATM, it wouldn't pay commission. It wouldn't what? 0. 5 If you're -- like, the Athena ATM knows that you're sending money into a Chivo 7 Wallet address. 8 0. Okav. q A. I believe, but I'm not certain, when 10 you send money into a Chivo Wallet, regardless 10 of who you are -- like you personally could put 11 11 12 money in the ATM and send it into Chivo Wallet. 12 And I believe that the software knows that you 13 13 14 are sending the money into Chivo Wallet and 14 15 therefore not charging you the commission. 15 That's the economic incentive for using this 16 16 1.7 very limited number of ATMs and going out of 17 18 your way to do it, because you can save 12, 18 19 12 percent on the remittance. 19 20 Q. So -- all right. The discussion 20 21 between you and Athena was that there was a 21 22 markup on the programmers. I get it. 22 23 But internally, how are you -- how do 23 24 you account for your salary versus the 24 25 programmers? 25 Page 107 1

Page 108 at a minute ago. It's one of the exhibits attached to the letter from your lawyer? ATTORNEY STEWART: Hold on, Larry. We're trying to find it. THE WITNESS: Is it Bates number 12? BY ATTORNEY FOWLER: Q. No. No, this isn't a Bates. What I'm looking at is on that letter from your lawyer, the next-to-last page, which is 37, it's an invoice dated November 4th, 2021. Do you see that? Yeah, I do. With Lance Moore for a Α. thousand dollars? Q. Yes. So tell me how the thousand dollars was arrived at. ATTORNEY STEWART: I think -- hold on a second, Larry. We've just -- I think it's Accruvia 11. We're just making sure. It's harder to see on the screen. He can see it. Just want to make sure that it's the same document. ATTORNEY FOWLER: Okay. ATTORNEY STEWART: I'm sorry. It's

Some of the salary -- because a lot of the programmers were on fixed salaries. So, 2 3 like, you notice the numbers repeating, like 10,016, 10,016, 10,000. That's because those three developers were making \$10,000. Two of them I incurred additional commissions for sending the \$10,000. Mariano is on a salary. Lance is on salary. Everybody is salary here. Well, I mean, they're contract employees, right -- or contract workers; correct. Α, Yes, they are. ROI paid them a flat rate per month for what?

Okay. And so you paid them a flat --

For working at least -- I forget what the --- working at least 25 hours a week. But on the Chivo Wallet project they were averaging, probably 12, 14 -- I know I was averaging 14 hours a day.

20 Okay. So let's just take Lance 21 Moore, who's on here. The amount's a thousand 22 dollars. And this invoice is dated 23 November 4th, 2021.

24 So and that's -- and that's paid -it's the next to last page that we were looking

Page 109 got it on the screen so, so...

November 4th, 2021 invoice. Yeah, I think

we're looking at the same document. We've

BY ATTORNEY FOWLER:

0. Okay.

Α. The invoice was -- covered at a period of three days, from November 1st to the 3rd. That developer was on a \$10,000 a month salary. And so I divided 3 by 30. And the 10 percent. 10 percent on 10,000 is \$1,000.

Okay. So...

All right. And then scroll up to the page right above that, which is dated — $it^{\dagger}s$ also -- it's dated November 3rd?

A.

Q. And Lance Moore is the first entry; right?

> A. Correct.

0. And that -- is that a 6 or an 8?

A. It's a 6.

0. So that \$6,513, how did you arrive at that number?

A. Lance went on vacation for close to two weeks. So I pro-rated the amount.

> Q. For what period of time?

24 I pro-rated it for the days that he worked in October of 2021.

9	Q. How did you come up with that number?	9	me for all the labor that he had hired us for.
10	A. That's his flat monthly rate.	10	This is the bill that Athena Bitcoin,
11	Q. So what did you look at to know he	11	Inc. paid.
12	worked the whole month?	12	Q. Okay. All right. So this is the
13	A. Well, one, he was physically present	13	labor that was performed after the term sheet

So the programmers during, during 3 October/November. During October, how many days September and October, all these folks that are 4 do you think you were in El Salvador versus 5 listed on here, are they only working on the 5 Texas? 6 Chivo Wallet project? 6 I don't know the exact number. I 7 Α. For which invoice? 7 believe I was home for -- I don't recall. It 8 Let's just use -- let's use the could have been as little as three or four days 8 9 very first one up there, the November 3rd one, 9 and maybe up to a week at a time. 10 where it says invoice for labor, October 1 10 What about November? 11 through 31. 11 I was in El Salvador on the 1st; flew 12 The only -- let me check the names. 12 home really, really late at night; and was in 13 ATTORNEY STEWART: The \$75,000 one? 13 Texas on the 2nd and 3rd. 14 THE WITNESS: Yeah. The only one 14 Then did you go back to El Salvador? 15 that was not exclusively on Chivo Wallet 1.5 I did on November 15th, but it had 16 was Gustavo Rodriguez. He helped with a 16 nothing to do with Athena. 17 small crisis on a Sunday, and so I pulled 17 0. I'm sorry. Say that again. 18 him in because he was the one I could 18 I went back to El Salvador around 19 round up. 19 November 15th for a Bitcoin conference in the 20 But other than that, everybody 20 country. But that did not have anything to do 21 else -- I was just looking real quickly, 21 with Athena. 22 but I believe everybody else was fully 22 Okay. All right. Okay. But this o. 23 dedicated to Chivo Wallet. 23 last invoice is just for November 1 through 3; 24 BY ATTORNEY FOWLER: 24 right? 25 So on Gustavo, the \$335, how did you 25 That's correct. Page 115 Page 117 1 come up with that? 1 Okay. And November 1 through 3, you Q. 2 That was just billed for the time said you were in Texas; right? 3 because he was fractionally working on it. 3 I was in Texas on the 2nd and 3rd. 4 Q. So is that like a day? What is it? 4 Okay. Did you ever have any 5 Α. I don't recall. 5 conversations with anyone at Athena about, 6 Okay. All right. Who performed 6 physically, how you were going to be paid -- not 7 these calculations that are reflected on this 7 how much, but how the funds were going to be 8 invoice that we're looking at? 8 delivered? 9 g Yes. Eric told me to send my invoice 10 ٥. Did you make any notes when you were 10 to Noreen Pepino and she would send me an 11 doing it? 11 electronic transfer payment. And I was more 12 Α. Not that I remember. worried about the timeframe. He assured me that 13 All right. So then the next invoice. 1.3 I would get paid within 24 hours. 14 which was the three days in November, how did 14 ٥. These documents we're looking at, the 15 you know how much to calculate on there? I 15 invoices, are you the one that physically 16 mean, is there anything you looked at, or you 16 created them? 17 just know everybody was working on the project? 17 Α. I am, yes. 18 I know everybody was working 18 All right. Is the first one that you 19 exclusively on the project. They were working 19 created the one that's marked Paid, dated 20 crazy hours. 20 October 4th, 2021? 21 0. And during those days in November, Α. Yes, that is the first invoice I 22 you were in El Salvador; correct? 22 created. 23 No. I was, I was in El Salvador, I 23 ο. Do you know when you were paid? 24 think, November 1st. But the 2nd and 3rd was in 24 A, I don't recall. But I know it's in Texas. Eric encouraged me to fly home because I one of your exhibits.

Page 118 Okay. So that's the first one that 1 you were paid. And then the next one that you 2 would have been paid -- excuse me, the next one 3 4 you would have created would have been the 5 invoice B1050 for the October 1 through 31; is 5 6 that right? 6 7 That sounds correct. Yeah, that 7 8 invoice goes through -- covers the month of 8 9 October. 9 10 Q. All right. Well, the very first 10 11 invoice you created where it says Bill To, it 11 12 just has an address; correct? It doesn't say 12 13 Athena anything; right? 13 14 Yeah. It says "Athena Bitcoin," 14 15 That doesn't specify which Athena. 15 16 Wait a minute. The very first 16 17 invoice, the one dated October 4th --17 18 Yes. Α. 18 19 Q. -- where does it say "Athena 19 20 Bitcoin"? 20 21 A. It does not. 21 22 Okay. Now, the next invoice, which Q. 22 23 is for October 1 through 31, it's addressed to 23 24 Athena Bitcoin; right? 24 25 Α. Correct. 25

Page 120

- Q. What was she marketing -- scratch that. What was, what was she marketing?
- A. Like I testified earlier, she was reporting directly to the CMO, who directed her activities. I was not directly involved in supervising her in any meaningful way.
- Q. But you were paying her salary; correct?
 - A. Correct.
- Q. So as far as what Bailey Jarrell was doing in the months of October and November 2021, you don't know; is that fair?
- A. The only thing that I know is that her efforts in the timeframe were focused on the conference. But what Athena hopes to accomplish out of the conference or its motivations for sponsoring or the business outcome they were seeking, I don't know.
- Q. Okay. So as we sit here today, you can't testify that in either September, October, or November 2021, Bailey Jarrell was working on the Chivo Wallet project?
- A. I -- like I testified earlier, it depends on where you draw the line on Chivo Wallet. Like at no point -- I don't remember --

- Q. Okay. Did you physically -- I mean, do you recall looking at anything or deciding on how -- what to put there on this invoice, on the Bill To, as opposed to the first invoice that you did where it doesn't have anything?
- A. Yeah, I think I realized after the fact that I didn't list the entity on the invoice, and so I added it in for the October invoice.
- 10 Q. Okay. As we sit here, do you 11 physically remember doing that?
 - A. I do not.
- 13 Q. What about the address, 1332 North 14 Halsted Street, Chicago, Illinois; where did you 15 get that address?
- A. I googled "address of Athena Bitcoin, Inc." And that's the address that comes up in Google's search results.
 - Q. So you think you got that address from a Google search; is that right?
 - A. Correct.
- 22 Q. Bailey Jarrell, the marketing she was 23 doing, tell me again what was — who was she
- 24 marketing to?
 25 A. I.do
 - A. I don't know.

Page 121

- I don't know because all her efforts were focused on the conference.
- And so whether the conferences was

 Chivo Wallet-focused or not I don't know because

 I did nothing for the conference prep. All I

 know is she was working on that. So I can't -
 I don't have knowledge of that.
 - Q. So to make sure you and I are on the same page, as far as what she was doing for Athena in September, October, and November 2021, you don't know what it was; is that correct?
 - A. No. She was working on the conference. She was doing whatever marketing Athena was focused on. She was getting the company ready to -- for its exhibition at the Bitcoin conference in San Salvador, El Salvador around November 15th. That was the exclusive focus of her efforts.

(Discussion held off the record.) BY ATTORNEY FOWLER:

- 21 Q. All right. So September, October, 22 November 2021, Bailey Jarrell is working on 23 Athena making a presentation at the Bitcoin 24 conferences; is that right?
 - A. And their group. But, yeah, it's all

Page 130 owning and operating Bitcoin ATMs across the 1 2 United States and including Texas. 2 3 With respect to the work that is 3 4 showing up in the three invoices we've talked 5 about, Accruvia 11, 12, and 13, how did -- let's 5 6 just use the first one, Franklin Grassais, which 6 7 is the top entry on the \$11,000 paid invoice 7 8 dated October 4th. Who would have told him what 8 9 work to do? 9 10 A. That was coming from Eric Gravengaard 10 11 or myself, with Eric serving as, like, the 11 director. So him and Edward Iskra, who was the 12 12 13 project manager, would direct me what my 13 14 priorities were. Sometimes they would directly 14 interject to my contract staff to tell them what 15 15 16 to do. Or they would give me a goal and an 16 17 objective, and then I would direct my staff to 17 18 accomplish the objective. 18 19 I believe you told Mr. Fowler that 19 20 you don't recall any conversations before 20 21 October 4th, 2021, with anyone at Athena as far 21 as: Here's the work that we want you to do. 22 22 23 Do you recall that testimony? 23 24 Α. I do. 24 25 0. And so why would that be? Why were 25 Page 131 1 these people doing work? 1 2 Athena was directing us specifically 2 3 3

Page 132 pretty sure that invoice was exclusively for my services, and everything that's not me is programming work.

- Q. Programming work for whom and what?
- ${\tt A.}$ $\;$ For Athena Bitcoin, Inc., for Chivo Wallet.
- Q. Now, did --- you've talked to
 Mr. Fowler a little bit about, you know, how
 this whole relationship came into being. And
 you mentioned some fraud issues. Do you recall
 who?
 - A. I do.
- Q. What was the fraud? The fraud wasn't Athena committing fraud; right?
 - A. That's correct; it wasn't Athena.
 - Q. What was the fraud?
- A. The fraud was the fact that, in order to -- if you know someone's DUI and their name, you basically able to open up -- because the third-party KYC vendor -- know your customer -- crashed and was not servicing.

So people figured this out very quickly that you could — because DUI's are public information, including the name. So all you got to do is find the list; and then you can

A. Athena was directing us specifically what to do. And that's why I was pushing back so hard; because it's so obvious that if somebody's telling me what work to do, there's an obvious expectation that I expect to get paid for it.

Q. And the work that Accruvia did for Athena, it's your understanding, is it not, that it was used for Chivo Wallet?

ATTORNEY FOWLER: Objection; form, leading.

THE WITNESS: The exclusive work that they did was for Chivo Wallet.

Q. Let me fix my question.

For what purpose was the work that's shown in the three invoices we discussed, what purpose was that?

A. It was exclusively for Chivo Wallet -- well, sorry. It was for Chivo Wallet, except for Bailey Jarrell's services, who was doing marketing.

But especially on the paid invoice, that was -- I need to double-check, but -- I'm

Page 133

sign up, get the 30 bucks, withdraw it in Bitcoin, and now it's not traceable.

And so when I mentioned that 10 to 20 percent number, by the time I left the project we were at 4 million registered users. So you have at least 10 percent of 4 million. So 400,000 people that each got 30 bucks, you're talking about \$12 million.

And for context, like for the American government, that would be chump change. But the government of the El Salvador, at the time they were negotiating with the IMF for a bailout for a billion dollars. And so when you're losing anywhere from 12 to 24 million dollars, just throwing it away on bogus registrations, they did not have that kind of money to just throw away to fraud.

So when they would come to us and beg us to run these scripts to mark these people as fraudulent as fast as possible, it's because they were bleeding money that they didn't have.

- Q. Who do you mean by "they"?
- A. "They" would be the government of 24 El Salvador.
 - Q. Did Athena ever make any complaints

He had to 25 sign off on it.

Bitcoin changes in fractions of a second.

And what — as soon as — so as we progressed and got the software stable, the government was able to increase the number of users it was putting on the platform. And around that time it was in the millions of — the user base was in the millions. AWS was completely misconfigured to where it couldn't handle the load; the databases were misconfigured.

But as we got the databases configured correctly and AWS correctly, the software able to calculate the balance — which is also a critical feature of the ATMs, that people could check their Chivo balance at an Athena Bitcoin ATM — the — people knew what the price of Bitcoin was, but they could see that the price was too low or too high.

And so we had pretty much the entire country turn into day traders where they would watch the real Bitcoin price was what the Chivo incorrect Bitcoin price was, and they could buy and sell risk-free and sell within five seconds later and make half a percent or a percent on their money.

Page 139

Q. And again, I think I'm repeating myself, but was he working for or subcontracted with Accruvia?

A. No. We've never paid Andrew Chalk.

Q. Did -- were there any complaints about his work?

Q. What were those?

A. He — the very first day that he joined Athena Bitcoin, Inc., after he got the environment set up — so when I say the first day, I mean the first day where he is actually writing code that we would use — and I directed him to work on unit tests, because unit tests, you're not going to break anything. It's a really good learning opportunity for you to get exposed to the code, but if you mess up, there's no consequences.

But at the time the government was hemorrhaging money in a completely separate way, through arbitrage. Arbitrage is where you know what the real market price is but you're able to buy it at a fake price. And the way that wallet software was designed was the price only updated once per minute; but globally, the price of

There was one specific incidence where we saw a guy start with \$2,000 and he had like \$400,000.

And so as because the Chivo Wallet ecosystem did not offset market risk, that means that all of those guys' profits came from the government of El Salvador. And again, they're negotiating for a IMF bailout because they're on the verge of bankruptcy.

So you can imagine the kind of pressure the government was feeling. And that snowballed right down to us. Miguel Sabal came into my office and directed me and said: I need this fixed today.

- Q. Who's he with?
- A. Miguel Sabal is the direct, is the direct advisor to President Bükele,
- $\ensuremath{\mathbb{Q}}.$ And what -- you said AWS. What's AWS?
- A. Amazon Web Services. It's the infrastructure that sends the code out.

Re: Demand for Payment on behalf of ROI Developers Inc. d/b/a Accruvia

Dear Mr. Soto:

This law firm represents ROI Developers Inc. d/b/a Accruvia ("Accruvia"), which has retained us to assist it in collection of the outstanding amounts owed to it by Athena Bitcoin Global ("Athena"). Enclosed with this letter are two invoices previously submitted by Accruvia to Athena, no. 1050 dated November 3, 2021 in the amount of \$75,250.57 and no. 1052 dated November 4, 2021 in the amount of \$8,428.34, both of which remain outstanding as of the date of this letter. I also enclose invoice no. 1049 dated October 4, 2021 in the amount of \$11,686.69, which reflects the parties' agreement and course of conduct regarding the invoicing and payment for services provided by Accruvia and its personnel to Athena.

On behalf of Accruvia, demand is hereby made that Athena, by no later than 5:00 p.m. (Dallas, Texas time) on December 21, 2021, remit payment to Accruvia of readily available funds in the amount of \$83,678.91. Please be advised that Accruvia expressly reserves all of its legal rights and remedies against Athena, including but not limited to its rights to pursue all of its lawful remedies against Athena in a legal action for damages for breach of contract, quantum meruit and theft of services under the Texas Theft Liability Act. If Accruvia prevails in any such legal action it reserves the right to seek not only to its actual damages for the outstanding balance owed, but also its additional damages, exemplary damages, attorney's fees, court costs and preand post-judgment interest to the maximum lawful extent.

Please immediately advise to me in writing whether or not Athena agrees to comply with the foregoing demand. If you have any questions concerning the contents of this letter, please contact me in writing. Oral communications will not serve to protect whatever rights Athena may have.

PLAINTIFF'S RESPONSES TO DEFENDANT'S FIRST SET OF PERSONAL JURISDICTION DISCOVERY

Plaintiff ROI Developers, Inc., d/b/a/ Accruvia ("Accruvia") responds to Defendant's First Set of Personal Jurisdiction Discovery as follows:

OBJECTIONS TO ALL REQUESTS

- 1. Accruvia objects to the definition of Accruvia because it includes independent contractors, over whom it does not exercise control. Accruvia also objects to this definition because it includes "other related parties retained or otherwise controlled by Accruvia." As written, in includes Accruvia's attorneys, making it seek privileged information, and it is unclear what "otherwise controlled by Accruvia' means. Accruvia will respond to the discovery requests on behalf of itself and in accordance with the Federal Rules of Civil Procedure.
- 2. Accruvia objects to the instruction regarding identifying or describing a person because, by requiring the person's present or last-known office address, work-related telephone number, occupation, job title, employer, and employer's contact information, it is overly broad and imposes a burden on Accruvia not required by the Federal Rules of Civil Procedure.

 Accruvia, to the extent necessary to respond to the discovery requests by identifying a person, will provide the person's name and last-known phone number/email.

R QUEST FOR PRODUCTION NO. 8: Any documents evidencing that Athena made contact with accruvia within the State of Texas, including phone records, notes from phone calls, ogs of connections to wireless networks, or WLAN report.

RESPONSE: Accruvia will produce responsive documents, if any, at a mutually convenient time and location

REQUEST FOR PROJUCTION NO. 9: All documents including but not limited to the employment or independent contractor agreement or the like, identifying the location or residence of any employee or subcontractor of Accruvia who performed took for Athena.

RESPONSE: Accruvia objects to his request because it is everly broad and seeks irrelevant information because the actual residency of the independent contractors, if they are not Texas residents, is not at issue. Accruvia has provided in response to Interrogatory No. 10 the names of independent contractors and has stated that any Occasion and Jarrell are or were Texas residents. With respect to Jarrell, who was a Texas resident when she was an Accruvia employee, she now works for Athena (or one of its related companie). Accruvia further objects to this request because, by seeking "all documents . . . identifying the location or residence," it is further overly broad, vague and ambiguous.

REQUEST FOR PRODUCTION NO. 10: All documents videncing a request for Accruvia to perform any work for Athens within or from the State of Texas

RESPONSE: Accruvia will produce responsive documents, if any, it a mutually convenient time and location.

REQUEST FOR PRODUCTION NO. 11: All documents evidencing a valid and existing agreement between Accruvia and Athena that provides that Athena will pay accruvia for the software development and support services work it performed for Athena."

RESPONSE: Accruvia will produce responsive documents, if any, at a mutually convenent and location.

Requests for Admission

REQUEST FOR ADMISSION NO. 1: Admit that the work you allege was performed for Athena did not have to be performed in Texas.

RESPONSE: Admitted.

REOCEST FOR ADMISSION NO. 2: Admit that the work you allege was performed for Athena was not work related to the ATMs owned and/or operated by Athena in Texas

RESPONSE: Denied

REQUEST FOR ADMISSION NO. 3: Admit that Athena's actions in breach of the terms of the alleged agreement that you described in your answer to Interrogatory No. 6 were not performed within the State of Texas.

RESPONSE: Denied.

REQUEST FOR ADMISSION NO. 4: Admit that no in-person meeting between Accruvia and Athena ever took place in Texas.

RESPONSE: Admitted.

<u>REQUEST FOR ADMISSION NO. 5:</u> Admit that a majority of Accruvia's business takes place in El Salvador.

<u>RESPONSE</u>: Accruvia objects to this request because it seeks an admission on a fact that is not relevant—i.e., where Accruvia's "business takes place." The issue for personal jurisdiction is *Athena's* contacts with Texas, not Accruvia's contacts elsewhere. Where Accruvia's "business takes place" is also undefined, vague and ambiguous, and Accruvia objects to this request on that ground too. Regardless of its intelevance, based on Accruvia's understanding of the phase "where business takes place," Accruvia denies this request.

REQUEST FOR ADMISSION NO. 6: Admit that your familiarity with Athena arose from work you were conducting in El Salvador.

RESPONSE: Admitted.

<u>REQUEST FOR ADMISSION NO. 7:</u> Admit that the only employee of Accruvia who was a Texas resident between August and November 2021 was Shaun Overton and admit that Shaun Overton worked mostly if not entirely from all Salvador.

RESPONSE: This request constitutes two requests for admission, making it improper. With respect to the only employee of Accruvia who was a Texas resident between August and November 2021," Accruvia denies that request. With respect to whether "Shaun Overton worked mostly if not entirely from El Salvador." Accruvia objects because the phrase "mostly if not entirely" is vague and ambiguous. Regardless, based on Accruvia's understanding or "mostly if not entirely," Accruvia denies that request.

REQUEST FOR ADMISSION NO. 8: Admit that Amena never sent any payment, correspondence or used any courier services for delivery of any communications to Accruvia in Texas.

RESPONSE: Denied.

REQUEST FOR ADMISSION NO. 9: Admit that Accruvia did not enter into a Term Sheet Agreement with Athena on September 22, 2021. Term Sheet Agreement is defined as the document produced to Accruvia Bates labeled 000003-000005.

RESPONSE: Accruvia admits that the Term Sheet is between Accruvia and "Athena Bitcoin Global Inc." Accruvia otherwise denies this request.

Dated this 13th day of June, 2022.
