Page 14 Page 16 1 J. Dederick - Highly Confidential 1 J. Dederick - Highly Confidential 2 includes Connected TV, CTV, Display, audio, 2 When did The Trade Desk go public? 3 digital out of home, native and social on a 3 Α. If memory serves, The Trade Desk 4 multitude of devices, such as computers, 4 went public in 2016. 5 mobile devices, televisions and streaming 5 Now, I want to direct your 6 devices. 6 attention to page 3 of this 2022 annual 7 Do you see that? 7 report. 8 Yes. 8 Now, under the Summary of Risk Α. 9 Is that an accurate description of 9 Factors, do you see in the fourth bulleted 10 The Trade Desk's business? 10 item the following: 11 Yes. And I would add that when we 11 The market in which we participate refer to clients, we refer to media buyers is intensely competitive and we may not be 12 12 who are leveraging a DSP. 13 able to compete successfully with our current 13 14 So, continuing on, the next and future competitors. 15 paragraph actually talks about The Trade 15 Do you see that? 16 Desk's clients. 16 Α. I don't believe that's the fourth 17 Do you see that? 17 bullet, for clarity. 18 Α. Uh-huh. 18 Ο. I'm sorry, the fourth bullet from 19 It says: 19 the bottom. 20 Our clients are advertising 20 A. Okay. 21 agencies, brands and other service providers 21 Ο. Do you see that? 22 for advertisers with whom we entered into 22 Α. I see that sentence. 23 ongoing master services agreements. 23 Do you stand by that statement in 24 Do you see that? The Trade Desk's annual report as the 24 25 25 Α. Yes. company's corporate representative? Page 17 Page 15 1 J. Dederick - Highly Confidential 1 J. Dederick - Highly Confidential 2 Is that an accurate description of 2 MR. VERNON: Objection. Vague. 3 The Trade Desk's clients? 3 I think it's important to note the 4 Yes, and all of those are buyers. 4 context of risk factors offered in a document 5 And for clarity, the brands really means 5 like this, the context will be to provide 6 advertisers in that context. prospective shareholders and our shareholders 7 Now, the next two sentences go on 7 a summary of our business to help insulate 8 to state: from lawsuits or SEC violations. And so, the 9 9 idea that we as a DSP compete with DSPs like We generate revenue by charging our 10 clients a platform fee based on a percentage 10 DV360 and that is a very intense competition of a client's total spend on advertising. We 11 11 is accurate. 12 also generate revenue from providing data and 12 I would also note under these risk 13 other value added services and platforms 13 factors --14 features. 14 Q. I'm sorry. 15 Is that an accurate description of 15 Α. I would note that there's a 16 the way in which The Trade Desk generates 16 section --17 revenue? 17 Hold on a second. 18 Yes, The Trade Desk generates 18 MR. VERNON: I think you have to 19 revenue based on the media buying activity of 19 let him -- objection. Please let him 20 those clients on our platform and that's an 20 finish his answer. 21 accurate representation of how. 21 Let me -- let me ask you the next question, okay? You've answered my question. 22 Ο. Now, when was The Trade Desk 22 23 established? 23 MR. VERNON: Please let him finish The Trade Desk was established in 24 his --24 Α. 25 2009. 25 So, I would also note that there's

Page 18 Page 20 1 J. Dederick - Highly Confidential 1 J. Dederick - Highly Confidential 2 a --2 The digital advertising market is a 3 Excuse me, Mr. Dederick. The DOJ 3 significant and growing part of the total 4 advertising market. 4 attorney is gonna be able to ask you 5 5 questions, but the way that this goes is I Do you see that? get to ask my questions, you've answered the 6 I do see that sentence. 7 question, so let me ask you the next 7 What is the digital advertising 8 question, okay? 8 market that is being referenced there? 9 MR. VERNON: I think --9 It looks to me like this paragraph 10 THE COURT REPORTER: (Admonition.) 10 is attempting to contextualize the larger 11 BY MS. RHEE: advertising marketplace. A portion of the So, Mr. Dederick, the next question overall advertising marketplace is often 12 12 13 in connection with this bulleted item under referred to as digital. Digital would be 13 14 the Summary of Risk Factors is, what market typically internet connected formats, media. is The Trade Desk referring to when it states And so, it appears that this paragraph is 15 15 16 "The market in which we participate is 16 attempting to contextualize a portion of the 17 intensely competitive"? 17 overall advertising market as digital. 18 My belief would be that the market 18 Well, why is it then referring to 19 we're referring to is the DSP marketplace, so 19 this market as "our industry"? 20 direct competition from DSPs like DV360. 20 The Trade Desk as it --21 Well, let me direct your attention 21 MR. VERNON: Objection. 22 22 to page 5. Misstates. Sorry. Misstates the --Do you see there's a section in the 23 23 what it says. 24 annual report that states: 24 I believe that this paragraph is 25 25 considered an industry trend. You'll see Our Industry. Page 19 Page 21 1 J. Dederick - Highly Confidential 1 J. Dederick - Highly Confidential 2 A. Yes. right before that -- that paragraph: Some of 3 Okay. And under that section the 3 the key industry trends are: 4 first bulleted or the first bolded item is a 4 That is under a topic heading 5 statement that says: called Our Industry, correct? 6 Media is increasingly digital. 6 I believe this portion, again, is 7 Do you see that? 7 to advise investors, prospective investors on 8 Α. Yes. what is happening in the overall advertising 9 9 It goes on to say: industry. 10 Media is increasingly digital as a 10 Is it under a topic heading called Q. 11 result of advances in technology and changes 11 Our Industry? Am I reading that correctly? 12 in consumer behavior. 12 I believe the importance of this 13 Did I read that correctly? 13 section and the reasons we are outlining 14 Α. I think so. 14 what's happening in the overall advertising 15 Ο. Yes or no. 15 industry is to illustrate trends in the 16 Please read it again. 16 advertising industry, that would potentially Α. 17 Media is increasingly digital as a 17 impact prospective and current shareholders. 18 result of advances and technology and changes 18 Mr. Dederick, my question is, is 19 in consumer behavior. The shift has enabled 19 this under a topic heading in The Trade 20 unprecedented options for advertisers to 20 Desk's Annual 10-K called Our Industry? 21 target and measure their advertising 21 Those words do appear on this page, Α. 22 campaigns across nearly every media channel 22 sure, yes. 23 and device. 23 And those words were the ones Ο. 24 Α. 24 selected by The Trade Desk, correct? Yes, that is what that says. 25 Okay. It then goes on to say: 25 That would've been the case, yes. Ο.

                                                      2
               -- from 2020 to the present?
                                                                    Okay. Is it your understanding
3
               MS. PREWITT: I'm gonna ask to go
                                                      3
                                                          that last look is something that continues?
          off the record here.
4
                                                      4
                                                                    I want to say that last look was
5
               MS. RHEE: There's a pending
                                                      5
                                                          deprecated at some point.
6
          question.
                                                      6
                                                                    In fact, it was deprecated, wasn't
7
          Ο.
               Can you answer that?
                                                      7
                                                          it?
8
               No, I don't remem- -- I didn't --
                                                      8
                                                                    MR. VERNON: Objection, leading.
9
     I'm sorry, you guys were all talking so I
                                                      9
                                                                    So, from what I've known and from
10
     didn't really hear the question.
                                                     10
                                                          what I've understood, there were a host of
11
               So, the pending question is: Have
                                                     11
                                                          practices that DFP and AdX realized that in
     you been asked to refresh any documents from
                                                          order to compel SSPs to participate in open
12
                                                     12
13
     2020 to the present?
                                                     13
                                                          bidding to effectively destroy the access
14
               MS. PREWITT: Objection. I've
                                                     14
                                                          created by header bidding, they needed to
15
                                                     15
                                                          capitulate on a few points. By that time,
          asked to go -- I've asked to go off
16
          the record so we can have a discussion
                                                     16
                                                          both had amassed dominant market share in the
17
         on this.
                                                     17
                                                          SSP category and in the publisher ad serving
18
              I don't remember.
                                                     18
                                                          category.
19
               MS. RHEE: Okay. We can take a
                                                     19
                                                                    So, to the extent they ended the
20
         break.
                                                     20
                                                          practices that created that dominant market
21
               THE VIDEOGRAPHER: Off the record.
                                                     21
                                                          share in order to compel SSPs into an arena
22
         The time is 6:43 p.m.
                                                     22
                                                          where they would effectively sacrifice the
23
               (Off-the-record discussion was
                                                     23
                                                          benefits gained by header bidding, you know,
24
         held.)
                                                     24
                                                          that's the context that I understand some of
25
               THE VIDEOGRAPHER: Back on the
                                                     25
                                                          these practices ending under.
                                                                                               Page 305

                                                                    Well, let me ask the question
3
     BY MS. RHEE:
                                                      3
                                                          again.
4
             Okay. Mr. Dederick, one of the
                                                      4
                                                                    Did last look get deprecated or
5
     questions that you were asked about from
                                                      5
                                                          didn't it?
6
     Mr. Vernon was about last look.
                                                      6
                                                                    I believe that when Google chose to
7
               Do you remember that?
                                                      7
                                                          deprecate the last look process, it was in
8
         Α.
               Yes.
                                                      8
                                                          the interest of compelling other SSPs who had
9
               And your testimony, if I recall
                                                      9
                                                          begun to threaten the dominant position that
10
     from the transcript, and this is I believe
                                                          Google created and publisher ad serving and
                                                     10
     193/21 to 194/3 was:
                                                          the ad exchange to participate in open
11
                                                     11
                                                          bidding, which was effectively their response
12
               Communication between an ad
                                                     12
13
     exchange and a publisher ad server. This is
                                                     13
                                                          to header bidding, which was the first time
14
     the ad exchange getting the opportunity to,
                                                     14
                                                          Google's dominance had ever been questioned
15
     you know, have access to the publisher ad
                                                     15
                                                          in publisher ad serving and in the ad
16
     server in a way others can't, other ad
                                                     16
                                                          exchange market.
17
     exchanges can't.
                                                     17
                                                                    And so, to the extent Google
18
               Do you recall that testimony you
                                                     18
                                                          pacified those SSPs by starting to send them
19
     gave?
                                                     19
                                                          checks. How often is it you get checks from
               MR. VERNON: Can you give us a
20
                                                     20
                                                          your biggest competitor, through open bidding
21
          chance to check what you're quoting
                                                     21
                                                          as a platform and process and they needed to
22
          from. It's 193?
                                                          end certain practices in order to do that.
                                                     22
23
               MS. RHEE: Yes.
                                                     23
                                                          That is the context that I understand the end
24
              Do you recall that testimony?
                                                     24
                                                          of last look coming.
         Ο.
```

25

So, is that a long answer to saying

I remember the line of discussion.

25

                                                                    Okay. Is that what Mr. Green, the
          A.
9
               Okay. So, it couldn't be that long
                                                      9
                                                          founder and CEO of The Trade Desk, said to
10
     ago because this is a conversation with
                                                     10
                                                          all of its employees?
11
     cookie deprecation, right?
                                                     11
                                                                    MS. PREWITT: Objection.
12
               MS. PREWITT: Objection.
                                                     12
                                                                    So, this is years ago. And what's
13
               Well, that conversation's been
                                                     13
                                                          helpful to note, more recently Jeff wrote an
14
     going on for a long time.
                                                     14
                                                          op-ed that's publically available which
15
                                                     15
                                                          states that Google has moved on from do no
              Okay. So, I want to direct your
16
     attention to the portion that begins with:
                                                     16
                                                          evil to win at all costs. So, unfortunately,
17
               And at Google, they're not
                                                     17
                                                          the policies that Jeff is referring to years
18
     interested in doing evil. Despite the fact
                                                     18
                                                          ago were not what Google implemented and
19
     that they do like to be big. They do like to
                                                     19
                                                          Jeff's hope and speculation about the
20
     win. They're not trying to destroy the
                                                     20
                                                          approach that Google Chrome and the Google
21
     internet. And what they did with the policy
                                                     21
                                                          team would take did not pan out. And that
22
     that they came out with I think threaded the
                                                     22
                                                          was not the message or the policies that
23
     needle perfectly between those two things.
                                                     23
                                                          Google has been threatening the industry with
24
     And I've been public about giving them lots
                                                     24
                                                          since this point.
25
     of credit for that. Lou's response to that
                                                     25
                                                                    So, you know, you see a more
                                                                                               Page 313

          J. Dederick - Highly Confidential
                                                      1
                                                               J. Dederick - Highly Confidential
2
     was, what if they feel pressured to do what
                                                      2
                                                          optimistic tone from us at this point and
3
     Apple did? I said, I believe Apple's been
                                                      3
                                                          then more recently, you know, the policies
4
     the most hypocritical company on this issue
                                                      4
                                                          and the actions of Google as they've talked
5
     in the world.
                                                          about Chrome's actions to deprecate
6
               Now, I want to actually then turn
                                                      6
                                                          third-party cookies, they've changed
7
     your attention to the second page and this is
                                                      7
                                                          dramatically from the messages that Google
8
     the page ending in 1902.
                                                          was giving the market at this time years ago.
9
               MS. PREWITT: Objection. Was
                                                     9
                                                                    Okay. Google was The Trade Desk's
10
          there a question there?
                                                     10
                                                          biggest competitor, right?
                                                                    Well, DV360 specifically is The
11
               MS. RHEE: I just want to complete
                                                     11
12
          the passage here about Google.
                                                     12
                                                          Trade Desk's biggest DSP competitor.
13
               So, do you see the page ending in
                                                     13
                                                                    And as you testified repeatedly,
     1902?
                                                          The Trade Desk's entire business is DSP; is
14
                                                     14
15
          Α.
               I see that page.
                                                     15
                                                          that right?
16
               The sentence that refers to Google
                                                     16
                                                                    MS. PREWITT: Objection.
          Ο.
17
     is the second full paragraph and it reads:
                                                     17
                                                               A.
                                                                    Yes, The Trade Desk is a DSP.
18
               They're not thinking about the fact
                                                                    So, is Google The Trade Desk's
                                                    18
                                                               Ο.
19
     that Google is trying to navigate something
                                                     19
                                                          biggest competitor?
20
     that is very sensitive and they're in the
                                                     20
                                                                    Google's DV360 is The Trade Desk's
                                                               A.
21
     cross-hairs on both the rock and a hard place
                                                     21
                                                          biggest competitor.
22
     to mix metaphors and it's really important
                                                     22
                                                                    Okay. So, now, since you said
23
     that we not overreact. With all that being
                                                     23
                                                          Mr. Green has done an about-face, I
24
     said, even if cookies went away, we would get
                                                     24
                                                          actually -- more recently, I want to direct

2	about last look, do you remember that?	2	control the auction and ad selection process
	· •		-
3	A. Yes.	3	top to bottom. One of the tiny features of
4	Q. Do you know whether Google has	4	one of those products going away, so?
5	tried to do anything similar to last look	5	MR. VERNON: So, I will give back
6	after, quote/unquote, deprecating it?	6	to the universe however much time I
7	A. My understanding from speaking to,	7	have left and thank everybody,
8	you know, I'm gonna we hadn't talked about	8	including, Mr. Dederick, the court
9	which hat I'm wearing. I'm gonna talk about	9	reporter and videographer for sticking
10	knowledge I've gained from talking to our	10	with us through a long day.
11	inventory partnerships team who regularly	11	THE VIDEOGRAPHER: It's okay with
12	interface with SSPs and publishers.	12	counsel to close out the video record?
13	My understanding was that the	13	MR. VERNON: Yep.
14	deprecation of the last look, which was	14	MS. PREWITT: Yep.
15	essentially an unfair advantage over	15	THE VIDEOGRAPHER: We're off the
16	competing SSPs and prospective competing ad	16	record at 7:08 p.m. and this concludes
17	servers was a part of an effort to bring the	17	today's deposition.
18	SSPs into their open bidding program and open	18	Thank you, everyone, and have a
19	bidding was Google's competitive response to	19	great evening.
20	header bidding.	20	(Time noted: 7:08 p.m. Eastern Time)
21	And again, header bidding was the	21	
22	first first real threat Google's dominance	22	
23	in publisher ad serving in the SSP business	23	
24	had ever experienced. And so, Google saw the	24	
25	other SSPs starting to threaten their	25	
1	Page 319 J. Dederick - Highly Confidential	1	J. Dederick - Highly Confidential
2	business and thought, how can we bring all of	2	
3	that control back into the Google ecosystem,	3	J U R A T
4	how can we regain control of a market that	4	
5	appears to be getting a little bit outside of	5 6	I, JOHN DEDERICK, do hereby
6	your sphere of control.	7	certify under penalty of perjury that
7	And so, open bidding was the	8	I have read the foregoing transcript
8	program where they brought all of the control	9	of my deposition taken on JULY 28,
9	back from the SSPs and literally started	10	2023; that I have made such
10	sending checks to their competing SSP	11	corrections as appear noted herein in
11	partners and those checks are too big for the	12	ink, initialed by me; that my
12	SSP not to say no to. So, open bidding	14	testimony as contained herein, as corrected, is true and correct.
13	essentially pacified those SSPs from	15	
14	continuing to threaten their dominance.	16	
15	Q. Does Google, quote/unquote,		
16	deprecating last look completely allay your	17	JOHN DEDERICK
