Greetings!

I hear y'all are suing the game

I got a few messages because my name was mentioned in the suit...

Welp, I tried to warn them for a long time about blasting your names, but here we are.

Only one thing...

I wasn't part of the DEI Committee in Louisiana

Actually, I dropped the SCA March 2020

I stepped down from the DEI Council April 2019.

I couldn't do anything related to An Tir once I moved back to Louisiana.

Just wanted to correct that piece in the petition.

Otherwise...

Thank you for keeping neutral throughout the entire thing.

I had a conversation with everyone who bashed you on my page that day. Nothing worked.

It wasn't on my personal page.

It was on my "Maude" page.

That page has been decommissioned for over one year. It is no longer active because I am out of the game.

Hope that helps.

As a matter of fact...

The DEI Council was lead by Sha'ya then Aenor once I stepped down.

Anyway, that's all I have to say. I've been done with the game since March 2020. They have been on a witch hunt since Charles de Bourbon told hood of so much power.

Have a good one.

I have

It's all over

Like I said, I'm good

Are you saying that you have seen the complaint we filed already?

Who gave it to you?
